Flood Risk Management and Drainage
➤ **Cart Gate Lane in Preesall (Wyreside)** – works to install a new drain and ditch have been completed which will reduce the risk of flooding from the school playing fields.

Progress Not As Expected

Flood Risk Management and Drainage
➤ **Ainspool in Churchtown (Garstang)** – designs for the scheme are currently being prepared with works anticipated to start during quarter 4 2015/2016. The proposed works may involve the installation of a new drainage section to alleviate flooding to the highway. The delay is due to the complexity of the works that are required.
