

Pharmaceutical Needs Assessment Steering Group

Terms of Reference

1. Background

From 1st April 2013, statutory responsibility for publishing and updating a statement of the need for pharmaceutical services passed to health and wellbeing boards (HWBs). Pharmaceutical Needs Assessments (PNAs) are used when considering applications for new pharmacies in an area and by commissioners to identify local health needs that could be addressed by pharmacy services. HWBs have a duty to ensure revised PNAs are in place by April 2018. The coordination and production of the pan-Lancashire PNA covering the three upper tier local authorities has been delegated to a steering group of partners. This collaborative approach gives ownership of the PNA process across the three localities and aims to encourage the widest range of stakeholders and those with an interest in the PNA to participate in its development. Following local discussions, it has been agreed to establish a pan Lancashire steering group to oversee the development of a Pharmaceutical Needs Assessment.
