

One Page Profile: Exemplar Special School

Name

Justin Time

What people like about me and what I like about myself

Happy great sense of humour infectious laugh
Very affectionate great memory musical
Good at beat boxing!

What is important to me:

Mum and Dad
Watching dvds and you tube clips and listening to music
Sharing my love of dvds with staff and friends at school
Routine, being prepared in advance for what I am going to be doing
Shopping trips with my mum
Buying and owning dvds and xbox games
Having my own space to go to when I need to
Wearing ear defenders
Being able to go outside – trampolining, going to the beach and the sea
Being able to choose my own food as I have limited things to eat

How I communicate:

I usually communicate by talking but I am not able to express my emotions in this way so I communicate these by my behaviour, eg bouncing, flapping my hands, grinding my teeth

How best to support me:

Understand my references (usually from dvds) and try and join in with me
Keep to consistent routines so I know what to expect
Use calendars and visual timetables to help me plan my days
Try to manage my expectations
Limit verbal information if I am stressed
Use pictures and symbols to reinforce verbal information
Humour sometimes works if I am getting a bit stressed, but not always
Be happy and don't shout

Aspirations: What I would like to do in the future:

Justin would probably like to be able to make his own music using samples & make his own you tube videos
For Justine to continue to do activities he enjoys and have the support he needs to do these things
Justine likes to go on holiday and have trips to different places
Justine may want to have friends but create these on his own terms

How these views were gathered:
