Lancashire County Council Children & Young People's Public Health Commissioning—Child Health Profiles 2017
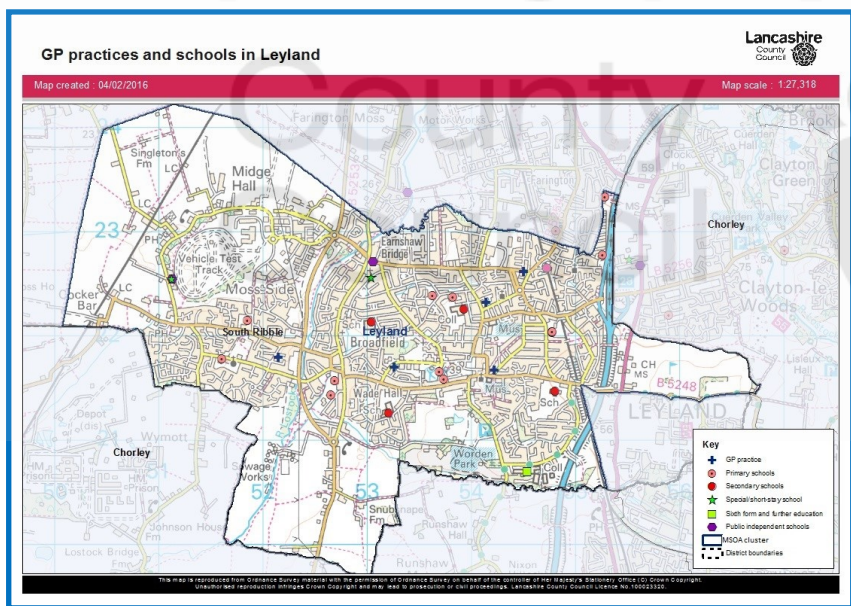

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people's health across the whole of County. These lower level profiles highlight where children's health needs are the greatest and opportunities to reduce inequalities are greatest.

GP practices and schools in Leyland

Map created : 04/02/2016   Map scale : 1:27,318

LEYLAND
