

## Lancashire County Council Children & Young People's Public Health —Child Health Profiles 2017

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA\* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people's health across the whole of County. These lower level profiles highlight where children's health needs are the greatest and opportunities to reduce inequalities are greatest.

### COLNE

There are 12 primary and 3 secondary schools in Colne along with 1 special school and 1 independent school.

There are 4 GP practices.

67% of 5 year olds achieved a good level of development at the end of reception (ranked 10th of the 34 CHPs where 34 = best) but only around half of children and young people are attaining key stage 2 and 4 education - both ranked 9th.

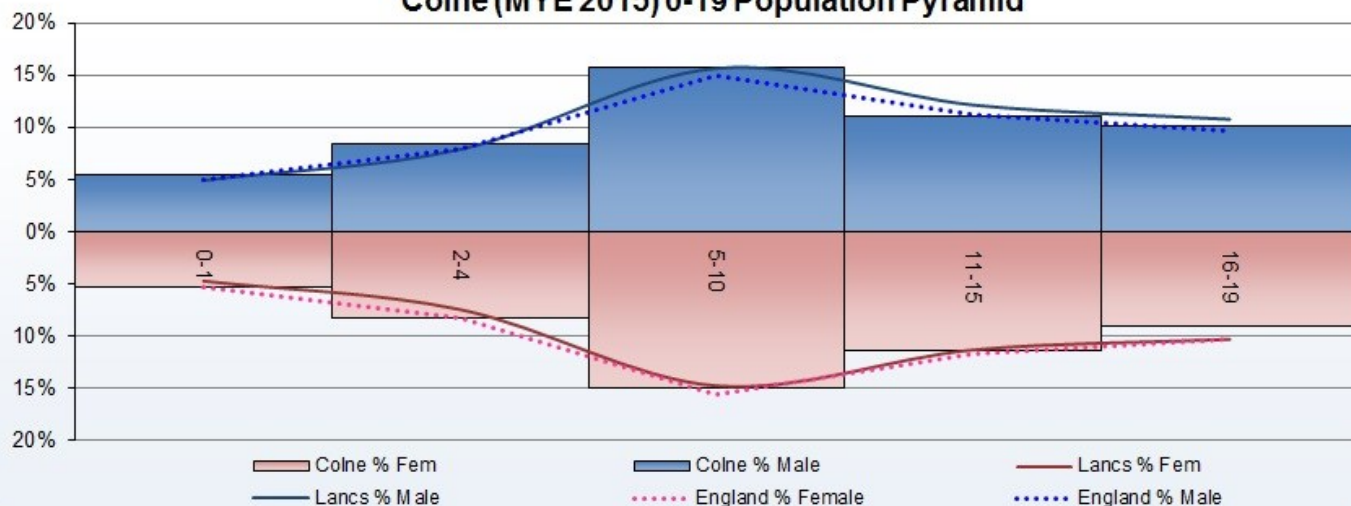

3.5% of young people are not in education employment or training (16th).

There were 15 children aged 0-4 being looked after as of the end March 2017 (7th) and 37 aged 5-17 (11th).

The 'best' indicator for Colne is child mortality with 1.25 deaths per 10,000 children aged 1-17 over a ten year period (7 deaths ranked 27th).

Age Band	Female	Male	Colne % Fem	Colne % Male	Lancs % Fem	Lancs % Male
0-1	346	361	5%	5%	5%	5%
2-4	549	558	8%	8%	7%	8%
5-10	990	1034	15%	16%	15%	16%
11-15	753	734	11%	11%	11%	12%
16-19	598	670	9%	10%	10%	11%
Total	3236	3357	49%	51%	49%	51%

Colne (MYE 2015) 0-19 Population Pyramid

\* MSOA - Middle Layer Super Output Areas are built from groups of Lower Layer Super Output Areas. The minimum population is 5000 and the mean is 7200

## Lancashire County Council Children & Young People's Public Health —Child Health Profiles 2017

Indicators are ranked according to their position within the 34 MSOA clusters created throughout Lancashire. The colour ramp indicates in which quintile the value is located. The top seven being **red** (worst 5th), the next seven being **orange** (2nd worst 5th) the mid 6 being **yellow** (middle 5th) the next to best seven being **blue** (2nd best fifth) and the lowest seven being **green** (best 5th)
