Lancashire County Council Children & Young People's Public Health Commissioning—Child Health Profiles 2017

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people's health across the whole of County. These lower level profiles highlight where children's health needs are the greatest and opportunities to reduce inequalities are greatest.

FYLDE EAST & BROUGHTON

There are 22 primary schools and 2 secondary schools (1 with a 6th form) in Fylde East and Broughton. There is 1 special school and 3 independent schools.

There are 4 GP practices.

Child mortality is high in Fylde East & Broughton with 2.75 deaths per 10,000 children aged 1-17 (20 deaths over a ten year period) which is 3rd highest of the 34 CHPs covering Lancashire (where 34 = best).

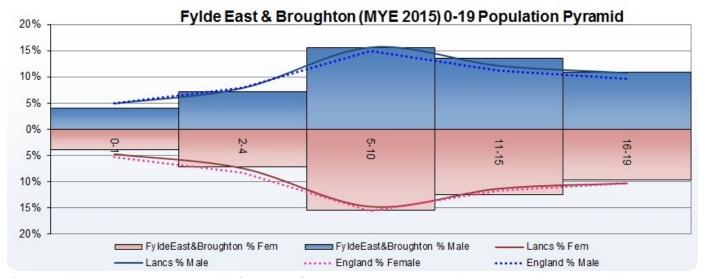

24% of children aged 4/5 and 25% of 10/11 year olds are carrying excess weight (10th and 33rd respectively).

A&E attendance rates and emergency admissions are low compared to other areas.

Just 9% of children are living in poverty and 9% of school children are getting free school meals.

Just 2% of young people are not in employment education or training and a higher proportion of school children are attaining key stage 2 and 4 education.

Age Band	Female					Lancs % Male
0-1	335	342	4%	4%	5%	5%
2-4	599	597	7%	7%	7%	8%
5-10	1303	1311	16%	16%	15%	16%
11-15	1046	1140	12%	14%	11%	12%
16-19	815	910	10%	11%	10%	11%
Total	4098	4300	49%	51%	49%	51%

^{*} MSOA - Middle Layer Super Output Areas are built from groups of Lower Layer Super Output Areas. The minimum population is 5000 and the mean is 7200

Lancashire County Council Children & Young People's Public Health Commissioning—Child Health Profiles 2017

Indicators are ranked according to their position within the 34 MSOA clusters and the colour ramp indicates in which quintile the value is located. The top seven being **red** (worst 5th), the next seven being **orange** (2nd worst 5th) the mid 6 being **yellow** (middle 5th) the next to best seven being **blue** (2nd best fifth) and the lowest seven being **green** (best 5th)
