

Lancashire County Council Children & Young People’s Public Health Commissioning—Child Health Profiles 2017

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people’s health across the whole of County. These lower level profiles highlight where children’s health needs are the greatest and opportunities to reduce inequalities are greatest.

LYTHAM ST ANNES

There are 9 primary and 2 secondary schools (1 with a 6th form) in Lytham St Annes. There are 4 independent schools.

There are 5 GP practices.

Child health outcomes are generally good in Lytham St Annes with the lowest rate of A&E attendances for 0-4 year olds in Lancashire, ranked 34th when comparing the 34 CHPs (where 34 = best). It has the second lowest rate (33rd) of A&E attendances for 5-17 year olds.

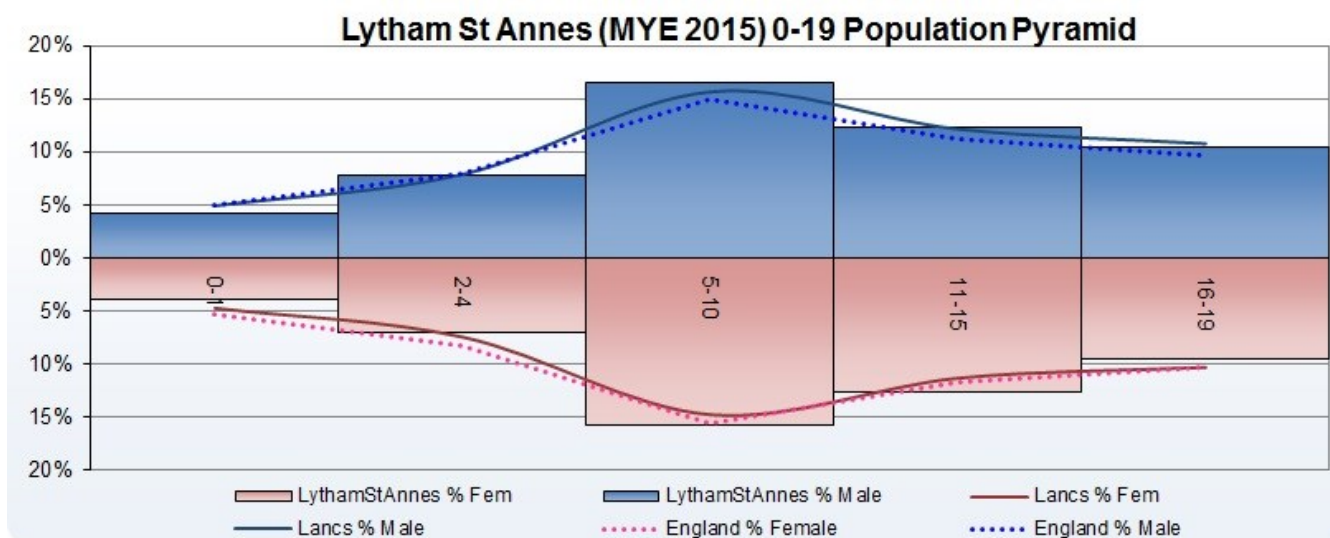

Non elective (emergency) admissions are also low for 0-4 year olds with 202

admissions per 1000 children aged 0-4 (33rd).

It has the lowest proportion of children aged 10/11 carrying excess weight (23%) and 17% of reception children carrying excess weight (32nd). The ‘worst’ indicators are the number of children on a child protection order with 22 aged 0-4 and 14 aged 5-17 (both ranked 11th).

There is a slightly higher proportion of 11-15 year old females living in Lytham St Annes than the Lancashire rate.

Age Band	Female	Male	LythamStAnnes % Fem	LythamStAnnes % Male	Lancs % Fem	Lancs % Male
0-1	316	347	4%	4%	5%	5%
2-4	575	632	7%	8%	7%	8%
5-10	1289	1354	16%	17%	15%	16%
11-15	1038	1014	13%	12%	11%	12%
16-19	782	855	10%	10%	10%	11%
Total	4000	4202	49%	51%	49%	51%

* MSOA - Middle Layer Super Output Areas are built from groups of Lower Layer Super Output Areas. The minimum population is 5000 and the mean is 7200

Lancashire County Council Children & Young People's Public Health Commissioning—Child Health Profiles 2017

Indicators are ranked according to their position within the 34 MSOA clusters and the colour ramp indicates in which quintile the value is located. The top seven being **red** (worst 5th), the next seven being **orange** (2nd worst 5th) the mid 6 being **yellow** (middle 5th) the next to best seven being **blue** (2nd best fifth) and the lowest seven being **green** (best 5th)
