# Lancashire County Council Children & Young People's Public Health Commissioning—Child Health Profiles 2017

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people's health across the whole of County. These lower level profiles highlight where children's health needs are the greatest and opportunities to reduce inequalities are greatest.

LANCASTER CENTRAL

There are 12 primary schools and 4 secondary schools (2 with 6th forms) in Lancaster Central. There are 2 independent schools and 1 further education college.

There are 6 GP practices.

There is a slightly higher proportion of 16-19 year old females than the rate for Lancashire.

The 'worst' indicator for Lancaster Central is child mortality with 2.6 deaths per 10,000 children aged 1-17 (ranked 5th of the 34 CHPs where 34 = best).

It has a low rate of infant deaths (compared to the other 34 areas) with 3.4 deaths per 1000 live births (25th).
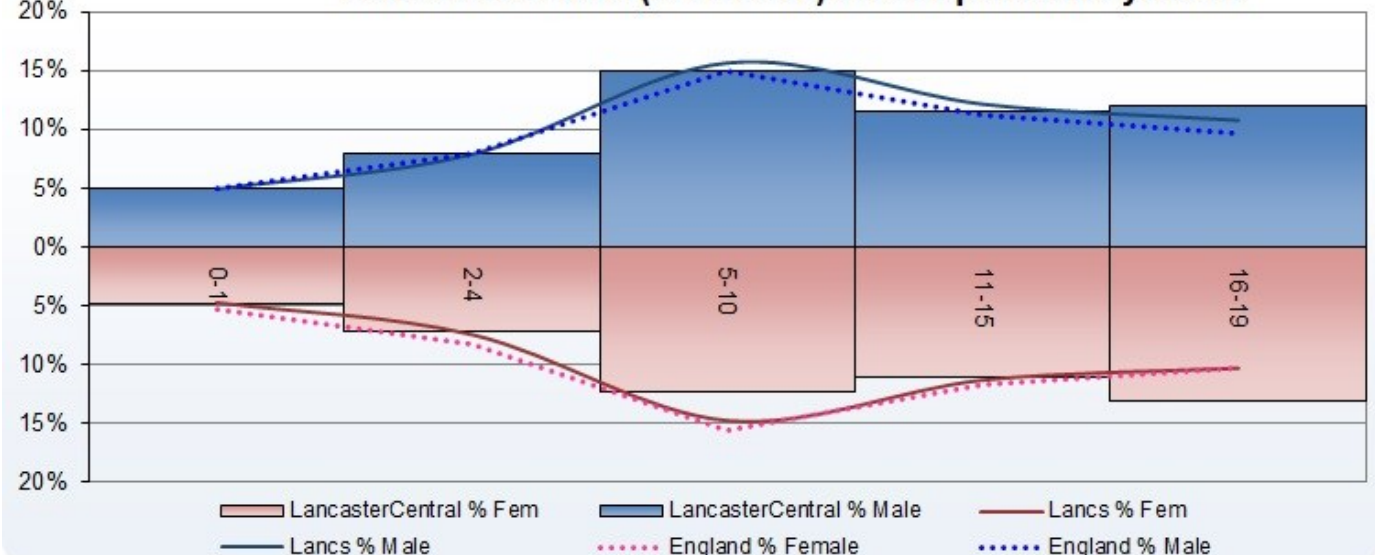

19% of children are living in poverty (the highest is 37% of the 34 CHPs).

There were 21 births to mothers aged <20 years, 4.14% of all maternities.

17 children aged 0-4 were being looked after in Lancaster Central as of the end of March 2017 (14th).

Age Band	Female	Male	LancasterCentral % Fem	LancasterCentral % Male	Lancs % Fem	Lancs % Male
0-1	474	475	5%	5%	5%	5%
2-4	701	771	7%	8%	7%	8%
5-10	1193	1450	12%	15%	15%	16%
11-15	1082	1111	11%	11%	11%	12%
16-19	1270	1165	13%	12%	10%	11%
Total	4720	4972	49%	51%	49%	51%
