### Special Weighing and Measuring Equipment

The charges for examining, adjusting, testing, certifying, stamping, authorising or reporting of special weighing or measuring equipment will be individually calculated based upon a figure of **£62.00** per officer/hour at the place where the service is provided. Such types of equipment, specifically excluded from the tables above, include:

- Automatic or totalising weighing machines
- Equipment designed to weigh loads in motion Bulk fuel measuring equipment tested following a Regulation 65 or 66 occurrence
- Weighing or measuring equipment tested by means of statistical sampling
- The establishment of calibration curves from templates
- Templates graduated in millilitres
- Testing or other services in pursuance of a Community obligation other than EC initial or partial verification

## NOTES

- *Testing of Non-Automatic Weighing Instruments and other instruments controlled by UK Regulations implementing the Measuring Instruments Directive are charged at a higher rate to reflect the additional associated tests.*
- *A charge based on the specified hourly rates to cover any additional costs incurred such as extra tests found necessary or travel outside of the County Area will be made.*
- *Out of standard hours testing will be charged at the relevant fee plus 25%*
- *The fees listed above include the supply of testing equipment required to carry out the test only. Equipment can be hired for prior calibration purposes.*
- *A 25% discounted testing fee will be charged in circumstances where, by agreement with the submitter, suitably certificated testing equipment is made available and used instead of that provided by the Service.*
