

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people’s health across the whole of County. These lower level profiles highlight where children’s health needs are the greatest and opportunities to reduce inequalities are greatest.

CHORLEY CENTRAL

There are 18 primary schools, 5 secondary schools and 2 special schools in Chorley Central. There are 6 independent schools.

There are 7 GP practices.

There is a high rate of infant deaths (7 deaths per 1,000 live births over a 10 year period).

4% of maternities are to mums aged <20 years (26 babies).

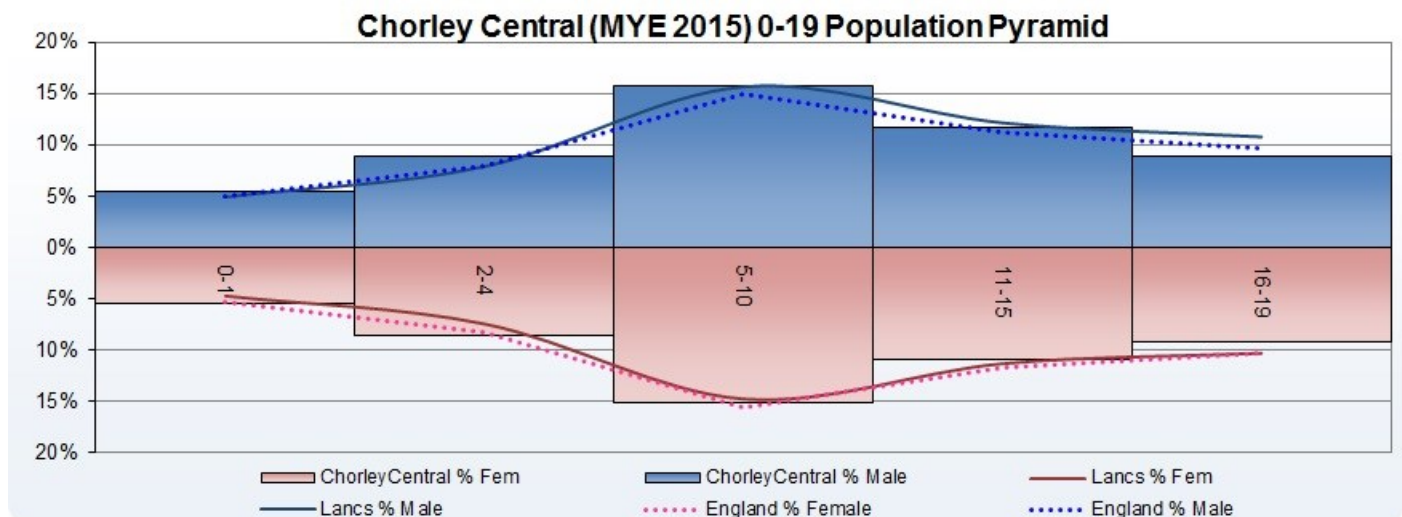

6% of young people aged 16-19 are not in education employment or training. 56% of children aged 10/11 and 15/16 achieve key stage 2 and 4 (ranked 13 and 18 respectively of the 34 CHPs where 34 = best).

The number of children aged 5-17 on a protection order or being looked after is high.

The ‘best’ indicator is emergency admissions for 0-4 year olds, ranked 24, with 223 children needing an emergency admission per 1,000 0-4 year olds in 2015/16.

There are proportionally more 2-4 year olds than the Lancashire rate and fewer 16-19 year olds.

Age Band	Female	Male	ChorleyCentral % Fem	ChorleyCentral % Male	Lancs % Fem	Lancs % Male
0-1	671	661	6%	5%	5%	5%
2-4	1042	1075	9%	9%	7%	8%
5-10	1851	1929	15%	16%	15%	16%
11-15	1338	1427	11%	12%	11%	12%
16-19	1117	1086	9%	9%	10%	11%
Total	6019	6178	49%	51%	49%	51%
