

Lancashire County Council Children & Young People’s Public Health Commissioning—Child Health Profiles 2017

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people’s health across the whole of County. These lower level profiles highlight where children’s health needs are the greatest and opportunities to reduce inequalities are greatest.

South Ribble East

There are 28 schools in South Ribble East of which 17 are primary schools. There are 3 secondary schools and no further / higher education colleges. There are 2 special schools and 3 independent schools.

There are 8 GP practices.

52 children aged 5-17 are being looked after live in South Ribble East. This is the 6th highest number in the 34 CHPs (where 34 = best).

There is a high rate of emergency hospital admissions for children aged 0-4 (ranked 9th).

4.5% of young people are not in employment education or training (12th).

3.7% of all live births are to mums aged <20 years old (12th).

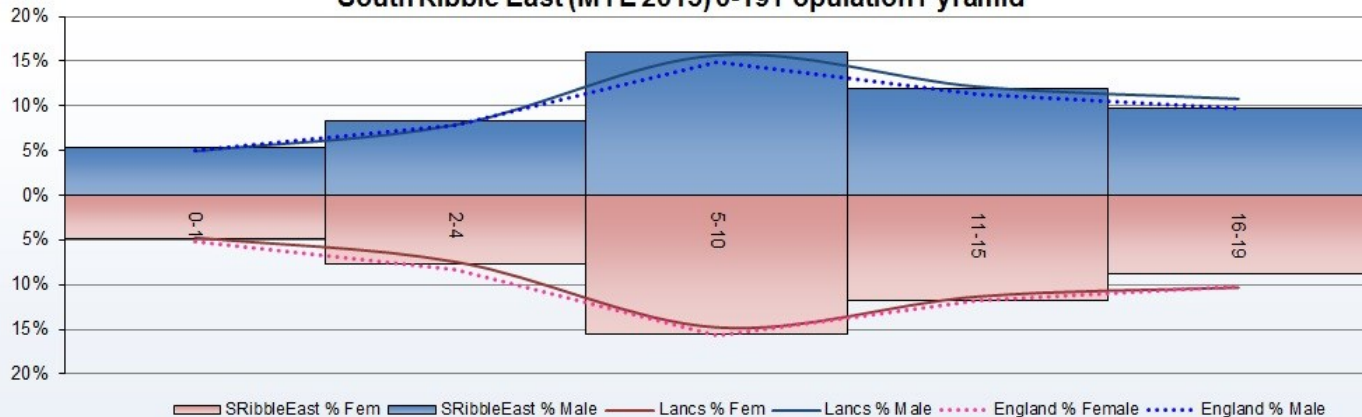

The ‘best’ indicator for South Ribble East is the proportion of 5 year olds carrying excess weight (20%) ranked 28th.

59% of 11 year olds and 63% of 15/16 year olds are achieving education key stage 2 / 4 respectively, both ranked 22nd.

14% of children are living in poverty in South Ribble East (18th) and 11% of school children are claiming free school meals (19th).
