

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people’s health across the whole of County. These lower level profiles highlight where children’s health needs are the greatest and opportunities to reduce inequalities are greatest.

SOUTH RIBBLE WEST

There are 13 primary and 4 secondary schools (1 with a 6th form) in South Ribble West. There is one independent school.

There are 7 GP practices.

South Ribble West is the least deprived of the 34 CHPs with just 6% of its children classed as living in poverty (the highest is 33.4%). Just 4% of children are on free school meals (32nd where 34 = best).

South Ribble West has the lowest rate of infant deaths.

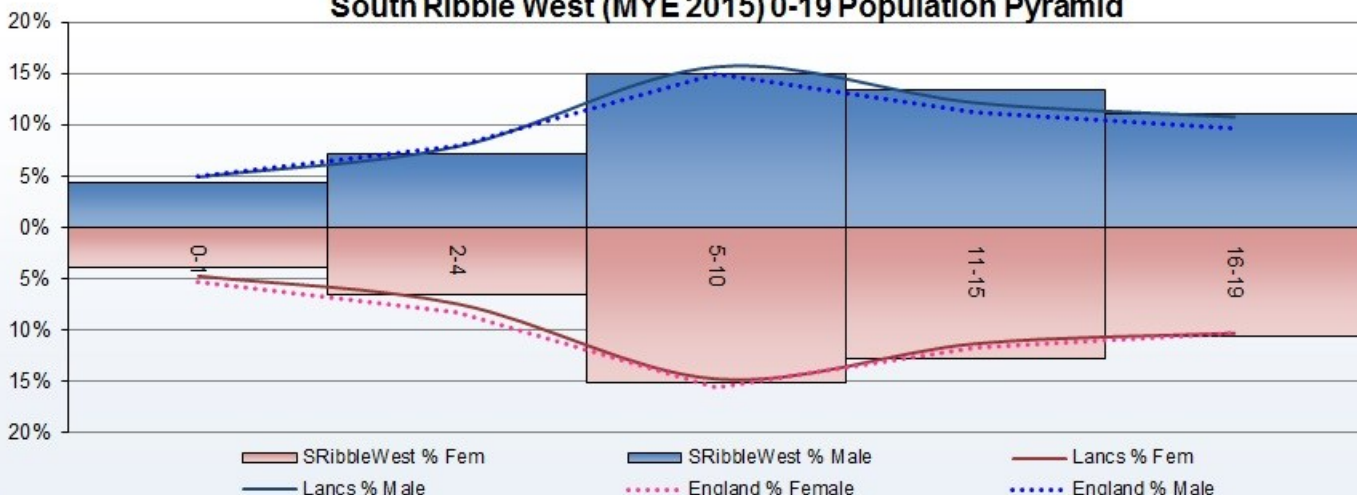

Just 1 child aged 0-4 and 4 children aged 5-17 are on a child protection order (ranked 33rd and 30th respectively of the 34 CHPs).

It has the 2nd lowest rate of road traffic accidents involving its children or young people being killed or seriously injured on Lancashire’s roads.

The ‘worst’ indicator is the rate of emergency hospital admissions for 0-4 year olds, ranked 10th of 34 CHPs, with 268 admissions per 1,000 children in this age band.
