

Lancashire County Council Children & Young People’s Public Health Commissioning—Child Health Profiles 2017

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people’s health across the whole of County. These lower level profiles highlight where children’s health needs are the greatest and opportunities to reduce inequalities are greatest.

WEST LANCASHIRE WEST

There are 18 primary schools and 2 secondary schools in West Lancashire West. There is 1 independent school.

There are 5 GP practices.

10% of children live in poverty in West Lancs West which is ranked 23rd of the 34 CHPs (where 34 = best).

The crude rate of road traffic accidents is the worst of the 34 CHPs for children living in West Lancs West with 4 children per 1000 living here being killed or seriously injured on Lancashire’s roads.

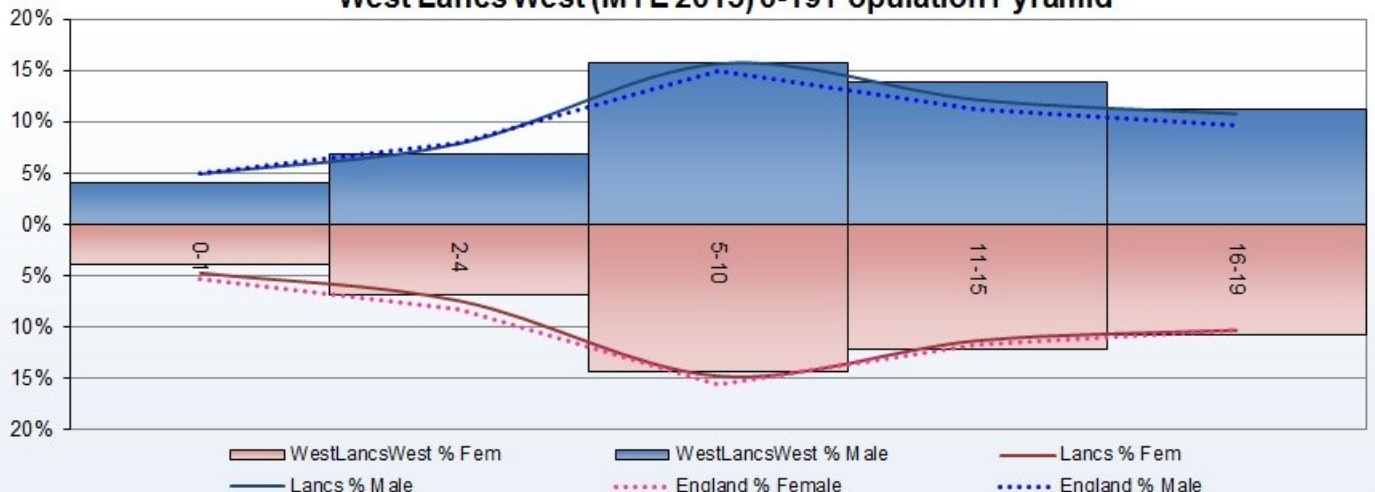

The A&E attendance rate for children aged 0-4 is high (ranked 3rd) with 908 admissions per 1000 children this age and for children aged 5-17 the rate is 458 per 1000 (ranked 4).

West Lancs West does however have the lowest rate of emergency admissions in the County with 180 admissions per 1000 children aged 0-4.

There is a low % of young people not in education employment or training (1.7% ranked 28th).
