

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA\* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people's health across the whole of County. These lower level profiles highlight where children's health needs are the greatest and opportunities to reduce inequalities are greatest.

**BURNLEY CENTRAL**

There are 7 primary schools, 4 secondary schools, 1 special school and 1 independent school in Burnley Central.

There is only one GP practice.

Burnley Central has the highest proportion of children living in poverty in Lancashire as well as the second highest % of children claiming free school meals. This ranking is based on the 34 CHPs for which 34 = best.

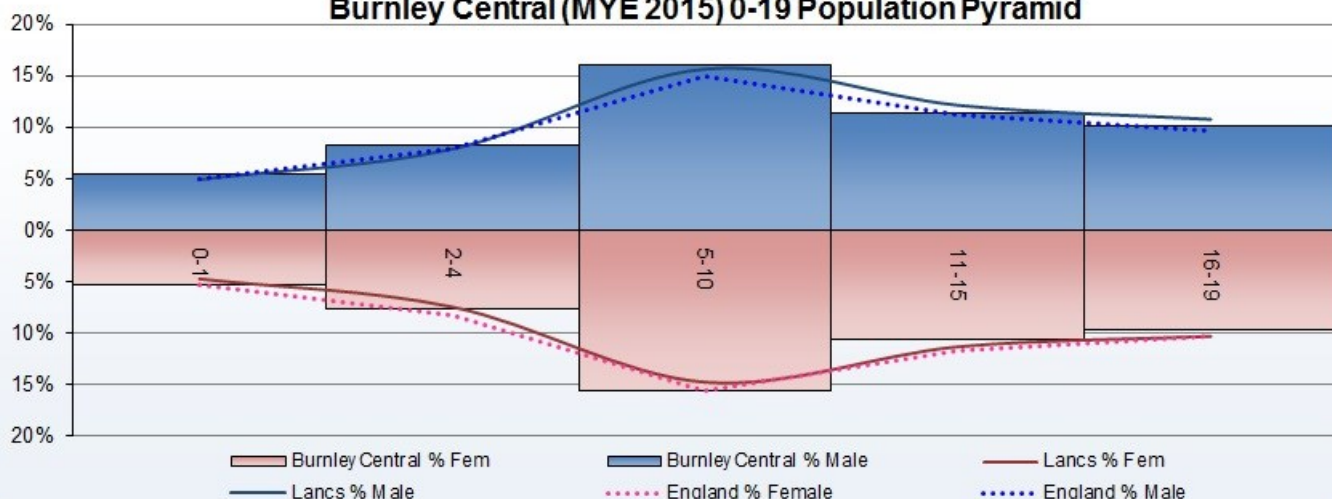

Burnley Central has the highest proportion of reception aged children carrying excess weight.

It has the 2nd highest rate of children being killed or seriously injured on Lancashire's roads and the 2nd lowest proportion of its children achieving a good level of development at the end of reception.

The 'best' indicator is that 14 children aged 5-17 are on a child protection order (ranked 19th).

Age Band	Female	Male	BurnleyCentral % Fem	BurnleyCentral % Male	Lancs % Fem	Lancs % Male
0-1	309	316	5%	5%	5%	5%
2-4	455	483	8%	8%	7%	8%
5-10	916	949	16%	16%	15%	16%
11-15	622	672	11%	11%	11%	12%
16-19	574	593	10%	10%	10%	11%
Total	2876	3013	49%	51%	49%	51%

**Burnley Central (MYE 2015) 0-19 Population Pyramid**

\* MSOA - Middle Layer Super Output Areas are built from groups of Lower Layer Super Output Areas. The minimum population is 5000 and the mean is 7200

Lancashire County Council Children & Young People's Public Health —Child Health Profiles 2017

Indicators are ranked according to their position within the 34 MSOA clusters created throughout Lancashire. The colour ramp indicates in which quintile the value is located. The top seven being red (worst 5th), the next seven being orange (2nd worst 5th) the mid 6 being yellow (middle 5th) the next to best seven being blue (2nd best fifth) and the lowest seven being green (best 5th)
