

Lancashire County Council Children & Young People's Public Health —Child Health Profiles 2017

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people's health across the whole of County. These lower level profiles highlight where children's health needs are the greatest and opportunities to reduce inequalities are greatest.

BURNLEY NORTH

There are 8 primary schools, 3 secondary schools, 1 further education / 6th form college, 1 public independent and 2 special schools in Burnley North.

There are 8 GP practices.

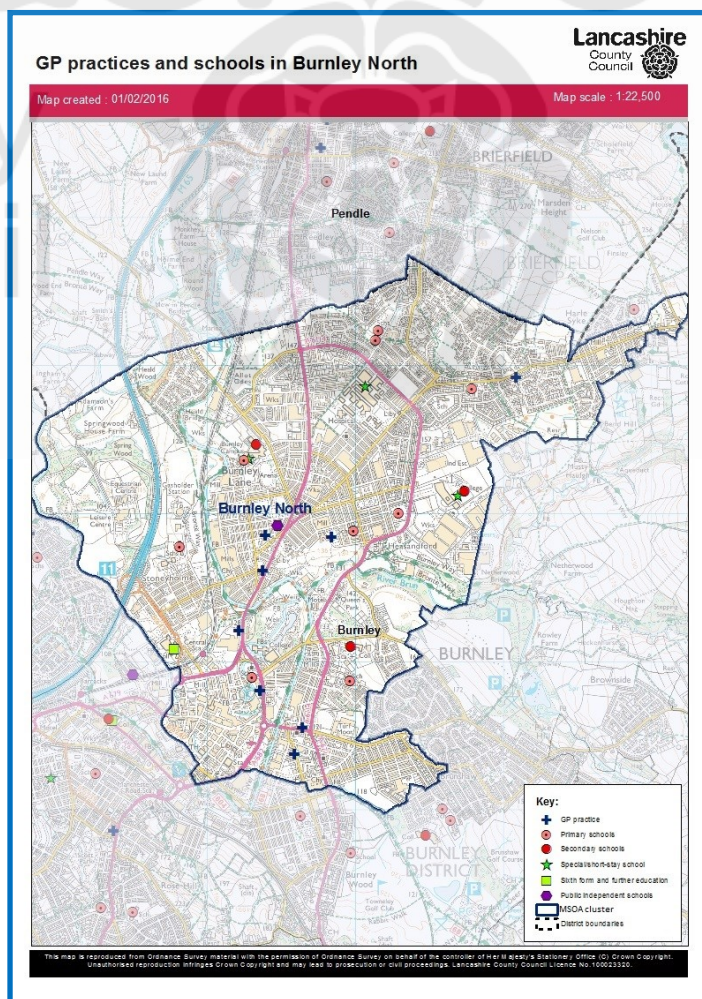

Burnley North has the highest number of infant deaths in Lancashire (based on the ranking within the 34 CHPs where 34 = best) with 11 deaths per 1,000 live births over a ten year period.

61% of 5 year olds achieved a good level of development at the end of reception (3rd). Just 41% of year 6 pupils passed education key stage 2 (2nd).

Burnley North has the 2nd highest proportion of year 6 (age 11) children carrying excess weight.

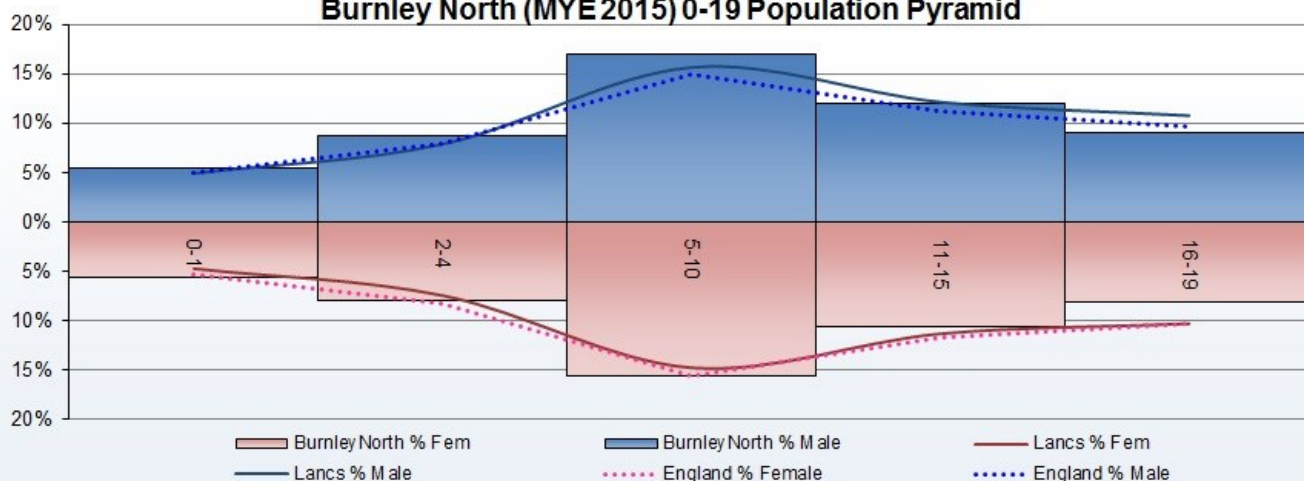

A&E attendances are high for 5-19 year olds but emergency admissions for 0-4 year olds is the 'best' indicator for this area ranking 15th (34 = best).

5% of all maternities were to women aged <20 years old (8th).
