

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people’s health across the whole of County. These lower level profiles highlight where children’s health needs are the greatest and opportunities to reduce inequalities are greatest.

BOWLAND

Most of Bowland is in Ribblesdale district with a small part being in Preston.

There are 22 primary schools and 3 secondary schools (2 in Longridge). There is 1 special school and 4 independent schools.

There are 3 GP practices with 2 of these being in Longridge.

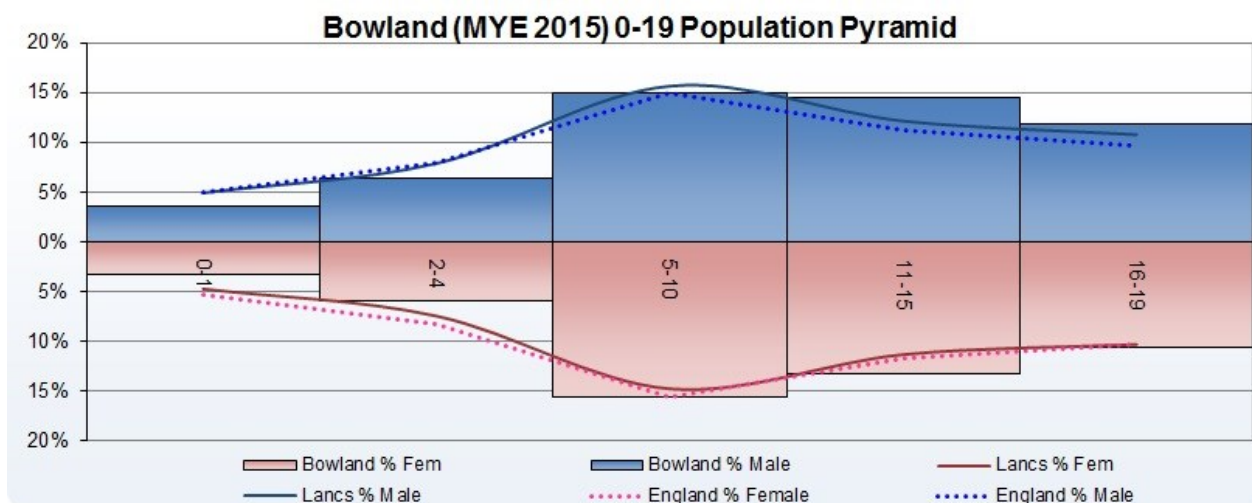

Bowland has the lowest proportion of children living in poverty and children claiming free school meals of the 34 CHPs in Lancashire - where 34 = best

It has the highest proportion of children attaining key stage 4 in education although the proportion doing so has fallen since last year.

It has the second best rate of children achieving a good level of development at the end of reception.

The ‘worst’ indicator is ranked 20th (34 = best) for emergency hospital admissions for the 0-4 year olds.

Age Band	Female	Male	Bowland % Fem	Bowland % Male	Lancs % Fem	Lancs % Male
0-1	248	260	3%	4%	5%	5%
2-4	442	474	6%	6%	7%	8%
5-10	1157	1113	16%	15%	15%	16%
11-15	989	1075	13%	14%	11%	12%
16-19	786	880	11%	12%	10%	11%
Total	3622	3802	49%	51%	49%	51%

* MSOA - Middle Layer Super Output Areas are built from groups of Lower Layer Super Output Areas. The minimum population is 5000 and the mean is 7200

Lancashire County Council Children & Young People's Public Health —Child Health Profiles 2017

Indicators are ranked according to their position within the 34 MSOA clusters created throughout Lancashire. The colour ramp indicates in which quintile the value is located. The top seven being red (worst 5th), the next seven being orange (2nd worst 5th) the mid 6 being yellow (middle 5th) the next to best seven being blue (2nd best fifth) and the lowest seven being green (best 5th)

Top 5 'worst' indicators	Rank		Value
Non elective admissions in 0-4 year olds rate per 1,000, 2015/16	20		235.25
No of looked after children aged 0-4 as of 31st March 2017	22	NEW	9
