

Lancashire County Council Children & Young People’s Public Health Commissioning—Child Health Profiles 2017

Public Health, assisted by Business Intelligence within Lancashire County Council have created 34 middle level (MSOA* cluster) Child Health Profiles (CHPs). This is because the CHPs on the Public Health England website are only at upper tier level. This does not show the outcome data at sub-district level but just an overview of children and young people’s health across the whole of County. These lower level profiles highlight where children’s health needs are the greatest and opportunities to reduce inequalities are greatest.

WYRE RURAL

There are 22 primary schools and 2 secondary schools in Wyre Rural. There is 1 further education college (Myerscough).

There are 5 GP practices.

Child health outcomes are some of the best in Lancashire.

There are only 2 children on a child protection order (ranked 34 of the 34 CHPs where 34 = best). There are no children aged 0-4 being looked after and 12 children aged 5-17 being looked after (rank 30th).

Wyre rural has the highest proportion of children aged 4/5 achieving a good level of development at the end of reception with 82% (the lowest is 59%).

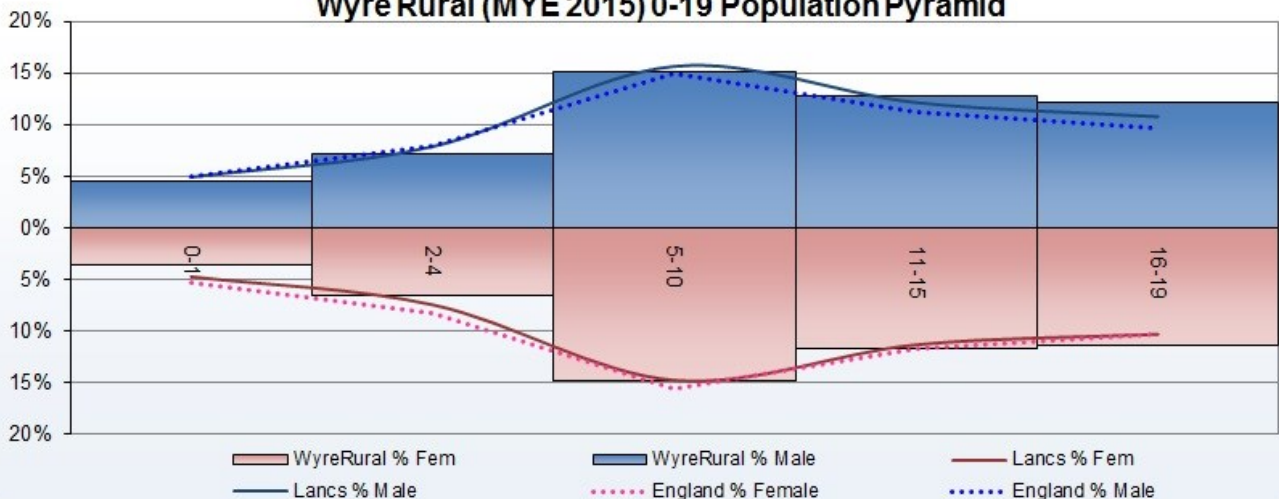

There is a very low A&E attendance rate for its 0-4 year olds with 356 attendances per 1000 0-4 yr olds (32nd).

There was just 1 child death per 10,000 1-17 yr olds over a ten year period (5 actual deaths - 30th).

The ‘worst’ indicator is the rate of children living in Wyre Rural who were killed or seriously injured in a road accident on Lancashire’s roads with 4 serious or fatal incidents between 2010-14 (3rd).

Age Band	Female	Male	WyreRural % Fem	WyreRural % Male	Lancs % Fem	Lancs % Male
0-1	217	271	4%	5%	5%	5%
2-4	398	434	7%	7%	7%	8%
5-10	891	905	15%	15%	15%	16%
11-15	707	771	12%	13%	11%	12%
16-19	687	733	11%	12%	10%	11%
Total	2900	3114	48%	52%	49%	51%
