

Appendix 1: Legal requirements for PNAs

This section contains an extract from The National Health Service (Pharmaceutical and Local Pharmaceutical Services) Regulations 2013. Please note that the HWB takes no responsibility for the accuracy of the extract. The full text of the Regulations is available at: <http://www.legislation.gov.uk/uksi/2013/349/contents/made>

1. These regulations may be cited as the National Health Service (Pharmaceutical and Local Pharmaceutical Services) Regulations 2013 and come into force on 1st April 2013.

2. Interpretation (long – see website)

3. The pharmaceutical services the PNA must cover are all the pharmaceutical services that may be provided under arrangements made by the NHSCB for:

- a) the provision of pharmaceutical services (including directed services) by a person on a pharmaceutical list;
- b) the provision of local pharmaceutical services under an LPS scheme (but not LP services which are not local pharmaceutical services); or
- c) the dispensing of drugs and appliances by a person on a dispensing doctors list (but not other NSH services that may be provided under arrangements made by the NHSCB with a dispensing doctor)

4. Information to be contained in PNA

- (1) Each PNA must contain the information set out in Schedule 1.
- (2) Each HWB must, in so far as is practicable, keep up to date the map which it includes in its PNA pursuant to paragraph 7 of Schedule 1 (without needing to republish the whole of the assessment or publish a supplementary statement)

5. Date by which the first HWB PNAs are to be published

Each HWB must publish its first PNA by 1st April 2015.

6. Subsequent assessments

- (1) After it has published its first PNA, each HWB must publish a statement of its revised assessment within 3 years of its previous publication.
- (2) A HWB must make a revised assessment as soon as is reasonably practicable after identifying changes since the previous assessment, which are of a significant extent, to the need for pharmaceutical services in its area, having regard in particular changes to –
 - a) the number of people in its area who require pharmaceutical services;
 - b) the demography of its area; and
 - c) the risks to the health or wellbeing of people in its area,

unless it is satisfied that making a revised assessment would be a disproportionate response.

(3) Pending the publication of a statement or a revised assessment, a HWB may publish a supplementary statement explaining changes to the availability of pharmaceutical services (..) where –

- a) the changes are relevant to the granting of applications referred to in section 129(2)(c)(i) or(ii) of the 2006 Act; and
- b) the HWB –
 - (i) is satisfied that making its first or revised assessment would be a disproportionate response, or
 - (ii) is in the course of making its first or revised assessment and is satisfied that immediate notification of its PNA is essential in order to prevent significant detriment to the provision of pharmaceutical services in its area.

7. Temporary extension of PCT PNAs and access by the NHSCB and HWBs to PNAs

Before the publication by an HWB of the first PNA that it prepares for its area, the PNA that relates to any locality within that area is the PNA that relates to that locality of the PCT for that locality immediately before the appointed day, read with

- a) any supplementary statement published by the PCT (..)*
- b) any supplementary statement published by the HWB (..)*

Each HWB must ensure that the NHSCB has access to –

- a) the HWB's PNA (including any supplementary statements) (..)*
- b) any supplementary statement that the HWB publishes (..)*
- c) any PNA of a PCT that it holds, which is sufficient to enable the NHSCB to carry out its functions under these Regulations*

Each HWB must ensure that, as necessary, other HWBs have access to any PNAs of any PCT that it holds, which is sufficient to enable the other HWBs to carry out their functions under these Regulations.

8. Consultation on PNAs

(1) When making an assessment for the purposes of publishing a pharmaceutical needs assessment, each HWB (HWB1) must consult the following about the contents of the assessment it is making—

- (a) any Local Pharmaceutical Committee for its area (including any Local Pharmaceutical Committee for part of its area or for its area and that of all or part of the area of one or more other HWBs);*
- (b) any Local Medical Committee for its area (including any Local Medical Committee for part of its area or for its area and that of all or part of the area of one or more other HWBs);*
- (c) any persons on the pharmaceutical lists and any dispensing doctors list for its area;*
- (d) any LPS chemist in its area with whom the NHSCB has made arrangements for the provision of any local pharmaceutical services;*
- (e) any Local Healthwatch organisation for its area, and any other patient, consumer or community group in its area which in the opinion of HWB1 has an interest in the provision of pharmaceutical services in its area; and*
- (f) any NHS trust or NHS foundation trust in its area;*
- (g) the NHSCB; and*
- (h) any neighbouring HWB.*

(2) The persons mentioned in paragraph (1) must together be consulted at least once during the process of making the assessment on a draft of the proposed pharmaceutical needs assessment.

(3) Where a HWB is consulted on a draft under paragraph (2), if there is a Local Pharmaceutical Committee or Local Medical Committee for its area or part of its area that is different to a Local Pharmaceutical Committee or Local Medical Committee consulted under paragraph (1)(a) or (b), that HWB—

(a) must consult that Committee before making its response to the consultation; and

(b) must have regard to any representations received from the Committee when making its response to the consultation.

(4) The persons consulted on the draft under paragraph (2) must be given a minimum period of 60 days for making their response to the consultation, beginning with the day by which all those persons have been served with the draft.

(5) For the purposes of paragraph (4), a person is to be treated as served with a draft if that person is notified by HWB1 of the address of a website on which the draft is available and is to remain available (except due to accident or unforeseen circumstances) throughout the period for making responses to the consultation.

(6) If a person consulted on a draft under paragraph (2)—

(a) is treated as served with the draft by virtue of paragraph (5); or

(b) has been served with copy of the draft in an electronic form, but requests a copy of the draft in hard copy form, HWB1 must as soon as is practicable and in any event within 14 days supply a hard copy of the draft to that person (free of charge).

9. Matters for consideration when making assessments

(1) When making an assessment for the purposes of publishing a pharmaceutical needs assessment, each HWB must have regard, in so far as it is practicable to do so, to the following matters—

(a) the demography of its area;

(b) whether in its area there is sufficient choice with regard to obtaining pharmaceutical services;

(c) any different needs of different localities within its area;

(d) the pharmaceutical services provided in the area of any neighbouring HWB which affect—

(i) the need for pharmaceutical services in its area, or

(ii) whether further provision of pharmaceutical services in its area would secure improvements, or better access, to pharmaceutical services, or pharmaceutical services of a specified type, in its area; and

(e) any other NHS services provided in or outside its area (which are not covered by subparagraph

(d)) which affect—

(i) the need for pharmaceutical services in its area, or

(ii) whether further provision of pharmaceutical services in its area would secure improvements, or better access, to pharmaceutical services, or pharmaceutical services of a specified type, in its area.

- (2) When making an assessment for the purposes of publishing a pharmaceutical needs assessment, each HWB must take account of likely future needs—
- (a) to the extent necessary to make a proper assessment of the matters mentioned in paragraphs 2 and 4 of Schedule 1; and
 - (b) having regard to likely changes to—
 - (i) the number of people in its area who require pharmaceutical services,
 - (ii) the demography of its area, and
 - (iii) the risks to the health or wellbeing of people in its area.

SCHEDULE 1 Regulation 4(1)

Information to be contained in pharmaceutical needs assessments

Necessary services: current provision

1. A statement of the pharmaceutical services that the HWB has identified as services that are provided—
- (a) in the area of the HWB and which are necessary to meet the need for pharmaceutical services in its area; and
 - (b) outside the area of the HWB but which nevertheless contribute towards meeting the need for pharmaceutical services in its area (if the HWB has identified such services).

Necessary services: gaps in provision

2. A statement of the pharmaceutical services that the HWB has identified (if it has) as services that are not provided in the area of the HWB but which the HWB is satisfied—
- (a) need to be provided (whether or not they are located in the area of the HWB) in order to meet a current need for pharmaceutical services, or pharmaceutical services of a specified type, in its area;
 - (b) will, in specified future circumstances, need to be provided (whether or not they are located in the area of the HWB) in order to meet a future need for pharmaceutical services, or pharmaceutical services of a specified type, in its area.

Other relevant services: current provision

3. A statement of the pharmaceutical services that the HWB has identified (if it has) as services that are provided—
- (a) in the area of the HWB and which, although they are not necessary to meet the need for pharmaceutical services in its area, nevertheless have secured improvements, or better access, to pharmaceutical services in its area;
 - (b) outside the area of the HWB and which, although they do not contribute towards meeting the need for pharmaceutical services in its area, nevertheless have secured improvements, or better access, to pharmaceutical services in its area;
 - (c) in or outside the area of the HWB and, whilst not being services of the types described in sub-paragraph (a) or (b), or paragraph 1, they nevertheless affect the assessment by the HWB of the need for pharmaceutical services in its area.

Improvements and better access: gaps in provision

4. A statement of the pharmaceutical services that the HWB has identified (if it has) as services that are not provided in the area of the HWB but which the HWB is satisfied—
- (a) would, if they were provided (whether or not they were located in the area of the HWB), secure improvements, or better access, to pharmaceutical services, or pharmaceutical services of a specified type, in its area,
 - (b) would, if in specified future circumstances they were provided (whether or not they were located in the area of the HWB), secure future improvements, or better access, to pharmaceutical services, or pharmaceutical services of a specified type, in its area.

Other NHS services

5. A statement of any NHS services provided or arranged by a local authority, the NHSCB, a CCG, an NHS trust or an NHS foundation trust to which the HWB has had regard in its assessment, which affect—
- (a) the need for pharmaceutical services, or pharmaceutical services of a specified type, in its area; or

(b) whether further provision of pharmaceutical services in its area would secure improvements, or better access, to pharmaceutical services, or pharmaceutical services of a specified type, in its area.

How the assessment was carried out

6. *An explanation of how the assessment has been carried out, and in particular—*

(a) how it has determined what are the localities in its area;

(b) how it has taken into account (where applicable)—

(i) the different needs of different localities in its area, and

(ii) the different needs of people in its area who share a protected characteristic; and

(c) a report on the consultation that it has undertaken.

Map of provision

7. *A map that identifies the premises at which pharmaceutical services are provided in the area of the HWB.*

Appendix 2: Characteristics of Localities

Defining localities

The PNA regulations require the PNA to define 'localities' to use during this process. Pan-Lancashire is made up of two upper tier local authorities (Blackburn with Darwen and Blackpool) and one county council (Lancashire County Council). Lancashire County Council's 12 lower tier local authorities are commonly used by Lancashire to sub-divide the county.

In considering how to define localities within pan-Lancashire, it was decided to use Blackburn with Darwen local authority, Blackpool local authority and the 12 lower tier local authorities of Lancashire County Council as localities; 14 localities across pan-Lancashire.

Blackburn with Darwen and Blackpool have a population of 147,049 and 139,195, respectively. The 12 Lancashire County Council localities used in the PNA have an average population of 99,899 (range, 58,826 to 143,5175) (ONS, 2016 mid year population estimates).

There was also a practical decision to be made to ensure that the document remained manageable in terms of size. Therefore it was agreed that data would be presented at locality level.

Upper and lower tier local authorities

Local authorities are well understood by many people and enables comparison of routine data. Pan-Lancashire there are 14 local authorities (two upper-tier and 12 lower-tier).

Clinical Commissioning Group (CCG)

There are 8 CCGs across pan-Lancashire and it is intended that the CCGs can use the PNA to inform their commissioning decisions.

Electoral wards

These are key building blocks of UK administrative geography. However, they have limited relevance to commissioning of pharmaceutical services, and are subject to change. The population size can vary from 100 to 30,000 residents.

Super Output Area (SOA)

This is a way of collecting and publishing small area statistics developed by the Office of National Statistics (ONS).¹ They are of a more consistent size than electoral wards, which facilitates an assessment of needs for the local populations. They are not subject to frequent boundary change, so may be more suitable for comparisons over time. In addition, they will build on the existing availability of data for census output areas. SOA data are increasingly used for health needs assessment, health planning and assessing health inequalities.

SOAs come in two levels. Lower Layer Super Output Areas (LSOAs) have a minimum population size of 1,000 people and the average size is 1,500 people. Additionally, LSOAs can be grouped into Middle Layer Super Output Areas (MSOA). The MSOAs population size is minimum 5,000 people and the average is 7,200 people. All MSOAs are contained within a local authority (LA) and do not cross LA boundaries.

Sources of data for small areas

A good source for a wide range of socio-economic data for small areas is the Office for National Statistics' Neighbourhood Statistics website (contains information on e.g. age structure,

housing, long-term illness and deprivation and other data from 2011 Census):
<https://www.ons.gov.uk/help/localstatistics>

Health profiles for the area can be found at: <https://fingertips.phe.org.uk/profile/health-profiles>

Some insight into the health needs of the local population can be gained from the Quality and Outcomes Framework data of the local GPs
<http://content.digital.nhs.uk/qof>

Comparing the prevalence of common conditions of the practices within the CCG or England average gives an indication of the health of the local population. A more convenient way of viewing individual practices are the practice profiles at
<https://fingertips.phe.org.uk/profile/general-practice>

Appendix 3: Methods used to identify providers

This section outlines the methods used for identifying providers of pharmaceutical services.

1. Identification of pharmaceutical service providers

Pharmacies within pan-Lancashire

A list of pharmacies as of 1 June 2017 including postcodes and other information was obtained from NHS England North (Lancashire and South Cumbria), who maintains the registration database of pharmacies.

Pharmacies outside of pan-Lancashire

Pharmacies in surrounding local authorities were obtained from the Health and Social Care Information Centre Organisation Data Service (ODS).

Dispensing doctors (GP) surgeries

NHS England North (Lancashire and South Cumbria) confirmed that there are 12 dispensing doctors across pan-Lancashire.

Distance selling pharmacies

A list of distance selling pharmacies was obtained from NHS England North (Lancashire and South Cumbria).

Dispensing appliance contractors

NHS England North (Lancashire and South Cumbria) confirmed that there are 4 dispensing appliance contractors in pan-Lancashire.

2. Creation of maps

The maps show the location of the pharmaceutical service providers in each of the 14 localities across the pan-Lancashire area.

Maps indicating locations of premises providing pharmaceutical services

Maps showing the locations of premises providing pharmaceutical services were created in ArcGIS by Lancashire County Council's Business Intelligence team.

Maps indicating travel distance

Maps showing travel times to pharmaceutical services were created using TRACC and ArcGIS network analyst software by Lancashire County Council's Transport Planning team.

Appendix 4: List of pharmacies

(As at June 2017)

Appendix 6: Results of the Community Pharmacy questionnaire

A questionnaire was sent to all 383 Community Pharmacies in the pan-Lancashire area. There were 209 returned questionnaires (54.6). In the table below 'Blank' denotes the number (percentage) who returned the questionnaire but did not respond to the specific question.

	Question	Response
Consultation facilities	Are consultation facilities on site and do they include wheelchair access?	Out of 209 returned questionnaires 176 (84.3%) Have consult. areas with wheelchair access 28 (13.4%) Have consult. areas w/o wheelchair access 4 (1.9%) No consultation rooms available 1 (0.5%) Blank
	Where there is a consultation area, is it a closed room?	Out of 204 returned questionnaires 199 (97.6%) Have the consult. area in a closed room 4 (2.0%) Don't have the consult. area in a closed room 1 (0.5%) Stated NA
	Have access to off-site consultation area?	Out of 209 returned questionnaires 130 (62.3%) Stated that None apply 79 (37.7%) Willing to undertake consultations in patient's home/ other suitable site
	During consultations are there hand washing facilities?	Out of 209 returned questionnaires 144 (68.9%) Hand washing facilities in cons. area 26 (12.4%) Hand washing facilities close to cons. area 34 (16.2%) No hand-washing facilities 5 (2.4%) Have toilet facilities available for patients

IT facilities	Electronic Prescription Service: Release 2 enabled, or No plans for EPS at present	Out of 209 returned questionnaires: 1 (0.5%) No current plans to provide EPS R2 208 (99.5%) EPS R2 enabled
Services	Essential Does the pharmacy dispense appliances?	Out of 209 returned questionnaires: 182 (87.0%) Yes - All Types 10 (4.8%) Yes, just dressings 5 (2.4%) Yes, excluding stoma appliances 1 (0.5%) Yes, excluding incontinence appliances 4 (1.9%) Yes, excluding stoma and incontinence appliances 3 (1.5%) Other: dressings and stoma and incontinence no space to measure and fit items 4 (1.9%) None
	Advanced Medicines Use Review	204 (97.6%) Yes 3 (1.5%) No 2 (1.0%) Soon
	New Medicine Service	201 (96.2%) Yes 5 (2.5%) No 12 (5.7%) Soon
	<i>Appliance Use Review</i>	166 (79.4%) No 29 (13.9%) Yes 0 (0.0%) Soon
	<i>Stoma Appliance Customisation</i>	169 (80.9%) No 28 (13.4%) Yes 12 (5.8%) Soon
	<i>Home Delivery Service</i>	128 (61.2%) Currently provide NHS funded service 33 (15.8%) Currently provide private service

		34 (16.3%) Willing to provide if commissioned 14 (6.7%) Blank
Non NHS Funded Services	Collection of prescription from surgeries	Out of 209 returned questionnaires: 202 (96.6%) Service provided 3 (1.4%) Service not provided 4 (1.9%) Blank
	Delivery of dispensed medicines – free of charge on request	Out of 209 returned questionnaires: 182 (87.0%) Deliver dispensed medicines free of charge on request 22 (10.5%) Don't deliver dispensed medicines free of charge on request 5 (2.4%) Blank
	Delivery of dispensed medicines – selected patient groups	59 (28.2%) deliver to selected patient groups. Selected patient groups stated include: care homes, elderly, disabled or housebound and other patients specifically requesting the service.
	Delivery of dispensed medicines – selected areas	51 (24.4%) deliver to selected areas. Areas ranged from immediate and local to nationwide.
	Delivery of dispensed medicines – chargeable	16 (7.7%) deliver medicines – chargeable.
Other	Does your pharmacy supply medicines etc. to care homes?	Out of 209 returned questionnaires: 25 (12.0%) Currently providing 117 (56.0%) Willing to provide 53 (25.4%) Blank

Appendix 7: Consultation report

Key	
additional content	Not resolved
Formatting/data correction	Request to engage in commissioning process
general comment	Amendment made
Request to engage in commissioning process	no action taken
	Comment forwarded to commissioner
	no action needed

Response no.	Description of issue/comment	Section in PNA	Source	Type	Status	Actions/Comments
1	I feel that there are more than enough local pharmacies within the borough and many claim to be open 24 hours. We probably could manage with fewer as long as the ones which exist are available to patients. This is where the sad lack of Public Transport takes effect and even if there is a pharmacy open it can not be reached as there are not enough local Public Transport Services.	Section 4	BwD council member of public	general comment	no action needed	
2	We agree with the recommendations and thank you for our copy of the draft PNA. We acknowledge that a thorough process has been followed in liaising with, and seeking feedback from, the public, relevant parties and organisations during the production of the PNA and we confirm that we believe it meets the requirements as set out in the regulations.	PNA document	North Yorks CC	general comment	no action needed	
3	I read the Pharmaceutical Needs Assessment with interest and found this to be a comprehensive document.	PNA document	Chief Pharmacist, Controlled Drugs Accountable Officer Lancashire Care NHS Foundation Trust	general comment	no action needed	
4	I would support proposals for increasing community pharmacy involvement in the NHS Healthcheck	Chapter 5	Chief Pharmacist, Controlled Drugs Accountable Officer Lancashire Care NHS Foundation Trust	general comment	no action needed	

5	I was pleased to see reference to the need to support mental health in those with long term conditions, and physical health in those with mental ill health. This seemed to predominantly focus on signposting and I feel we need to collaboratively consider how community pharmacies can provide more support to this agenda. This is particularly important for those patients who are reluctant to access GP surgeries for health checks but may be more willing to access interventions via their community pharmacy. As Chief Pharmacist at Lancashire Care NHS Foundation Trust, I would be delighted to contribute to these discussions and provide support and advice as appropriate	Chapter 5	Chief Pharmacist, Controlled Drugs Accountable Officer Lancashire Care NHS Foundation Trust	Request to engage in commissioning process	Comment forwarded to commissioner	This comment will be forwarded to the relevant public health commissioners.
6	Given the concerns out of hours where patients and district nurses sometimes struggle to access palliative care medicines, it may be helpful to think about expanding the range of palliative care stock held in some of the out-of-hours pharmacies. This will help prevent unnecessary delays for patients at end of life whose medication requirements suddenly change	Chapter 5	Chief Pharmacist, Controlled Drugs Accountable Officer Lancashire Care NHS Foundation Trust	general comment	Comment forwarded to commissioner	This suggestion will be forwarded to commissioners to take into account when recommissioning JIC services.
7	Given the national concerns about use of valproate in women of child bearing age, I would particularly like to see reference to this NPSA Patient Safety Alert with additional narrative about expectations from community pharmacies to support increased awareness and counselling about the risks	Chapter 5	Chief Pharmacist, Controlled Drugs Accountable Officer Lancashire Care NHS Foundation Trust	general comment	no action needed	The PNA is about the services provided by pharmacies, and hence this point is too detailed a point for inclusion in a PNA. For background a reminder was reissued to contractors about the need to take action on this matter late last year - http://psnc.org.uk/our-news/epilepsy-drug-warnings-are-not-reaching-women-suggests-media-report , & the Community Pharmacy Patient Safety Group has also been looking at this issue to see what else could be done to ensure pharmacy teams remember to give advice to patients. This level of detail is out of scope for a PNA.
8	This is saying the number of pharmacies has reduced, Worded more clearly in the opening remarks of chapter 4	Exec Summary - Ch4	CPL	Formatting /data correction	Amendment made	
9	This is saying there were 24 per 100,000 last time now there are 26, how does this fit in with the paragraph above?	Exec Summary - Ch 4	CPL	Formatting /data correction	Amendment made	
10	Blackpool Council do not commission this service (EHC) from Community Pharmacy	Exec Summary	CPL	general comment	no action needed	
11	It is NHSE who holds the contract so technically it is to them that we are accountable. The LPN provides professional oversight for NHSE for	Exec Summary	CPL	Formatting /data correction	Amendment made	End paragraph with work plan (i.e., delete "and is accountable.....plan".)

	this contract. The last part of the sentence does not make sense from the ...and is accountable to the LPN. This implies the LPN is accountable to the LPN?					
13	With not via – you can use other routes	Exec Summary	CPL	Formatting /data correction	Amendment made	changed to "with"
14	In Central & East Lancs they also provide One to one stop smoking level two - it is referred to on p112	Exec Summary	CPL	Formatting /data correction	Amendment made	added One to one stop smoking level two (specific uptake) as a separate bullet point
15	There is an opportunity for all pharmacies and social and healthcare agencies to publicise and promote pharmacy services in the future.	Exec Summary - Recommendations	CPL	Formatting /data correction	Amendment made	Changed obligation to opportunity
16	I understand they commission the MAS Scheme in West Lancs CCG – check with NHSE	Chapter 1 - 1.5.2	CPL	Formatting /data correction	no action needed	The scheme is commissioned and run by the CCG
17	They also commission the Advanced services as well	Chapter 1 - 1.5.3	CPL	Formatting /data correction	Amendment made	
18	Check the wording, my understanding is that the PIF is not exclusively for community pharmacy, yet pharmacy in general	Chapter 2 - 2.7	CPL	Formatting /data correction	Amendment made	Delete "There is no 'keep things as they are' option for any part of the NHS.". Deletion from last sentence: "...change how it works.". End last sentence to: "... need to adapt and alter its model for the provision of pharmaceutical services in future.".
19	Suggest you check the accuracy of this paragraph with NHSE. Also query use of the word "substantial"	Chapter 2 - 2.7 page 13	CPL	Formatting /data correction	Amendment made	Amended to: "NHS England has seen a small reduction in the numbers of pharmacies across its area. Additionally, there have been some changes to opening hours but these have had very little impact on services provided. It is expected that.....".
20	The LPS I understand also provides EHC commissioned by NHSE	Chapter 4 - 4.1.7 - Blackpool	CPL	Formatting /data correction	Amendment made	Take out EHC from the list of examples. Add this after "...Specialised Commissioning. The pharmacy continues to provide EHC services, commissioned by NHS England.".
21	This service is commissioned by NHSE, so the last sentence is in part correct PH don't need to supply resources. However, for the 6 NHS campaigns This paragraph is not quite right - PSNC guidance on provision of materials for the six public health campaigns: if leaflets and posters or other patient literature are to form part of a public health campaign these should be provided to the community pharmacy contractor by NHS England or alternatively a source of free leaflets, such as the Department of Health (DH) order line, could be highlighted prior to the start	Chapter 4 - 4.3.1	CPL	Formatting /data correction	Amendment made	Share with steering group to decide how we change this section to reflect LPC's comments

	of the campaign. It is not a requirement of the service for the contractor to purchase leaflets, or to go online and download and print leaflets					
22	Incorrect title for the service in pharmacy, should be Seasonal Influenza Vaccination Advanced Service	Chapter 4 - 4.3.1	CPL	Formatting /data correction	Amendment made	
23	In Central & East Lancs they also provide One to one stop smoking level two - it is referred to on p112	Chapter 4 - 4.6.1 - Lancashire	CPL	Formatting /data correction	Amendment made	added One to one stop smoking level two (specific uptake) as a separate bullet point
24	The Minor Ailment Scheme is called Pharmacy + Clinic	Chapter 4 - Figure 4.53	CPL	Formatting /data correction	Amendment made	
25	West Lancs CCG - They do not provide a Minor Ailments Scheme, I understand it is provided by NHSE	Chapter 4 - Figure 4.53	CPL	Formatting /data correction	no action needed	West Lancs CCG provide a MAS service. The scheme is commissioned and run by the CCG
26	Consider rewording The Electronic Prescription Service (EPS) enables prescriptions to be sent electronically from the GP practice to the pharmacy. It has been deployed through two key releases. Release 1 (R1) in which the barcoded paper prescription form remains the legal prescription known as a "token". Release 2 supports the transmission of electronic prescriptions; including e-repeat dispensing (eRD); and patient nomination of their selected pharmacy; Currently, prescriber's can only issue an electronic NHS prescription where it is being sent electronically to a patient's nominated pharmacy.	Chapter 4 - section 4.7.3	CPL	Formatting /data correction	Amendment made	
27	In Blackpool the LPS also provides EHC commissioned by NHSE I understand	Chapter 5	CPL	Formatting /data correction	Amendment made	"...Connect service and at Whitegate Pharmacy."
28	In Central & East Lancs they also provide One to one stop smoking level two – it is referred to on p112	Chapter 5 - section 5.2.2	CPL	Formatting /data correction	Amendment made	Taken out Central and east as its county wide - Not all pharmacies have undertaken the level 2 training
29	Fylde & Wyre CCG - The Minor Ailment Scheme is called Pharmacy + Clinic	Chapter 5 - Figure 5.1	CPL	Formatting /data correction	Amendment made	
30	West Lancs CCG - They do not provide a Minor Ailments Scheme, I understand it is provided by NHSE	Chapter 5 - Figure 5.1	CPL	Formatting /data correction	no action needed	The scheme is commissioned and run by the CCG
31	Not in Blackpool, so rephrase pan Lancashire	Chapter 5 - Section 5.6.3	CPL	Formatting /data correction	Amendment made	

32	Unclear as to the conclusion if on p117 you say the teenage pregnancy rate in Blackpool is over the national average, and here you say the demand from those under 19 has been low, choosing to use Connect. What has the impact been since supply was restricted in 2016 to one pharmacy and Connect?	Chapter 5 - Section 5.7.1	CPL	general comment	no action needed	The recommendation of the review was not to renew the contract for the provision of the service. Too early to see an impact; TP is multifactorial
33	One pharmacy does EHC in Blackpool & on P 119	Chapter 5 - Section 5.7.1	CPL	Formatting /data correction	Amendment made	Added: EHC is also freely available at Whitegate Pharmacy, a service commissioned by NHS England.
34	This could read Independent Prescribing – the Pharmacy Integration Fund is looking at this	Chapter 5 - Section 5.10	CPL	Formatting /data correction	Amendment made	
35	CCGs as well?	Chapter 5 - Section 5.12- Healthcare associated infections	CPL	Formatting /data correction	Amendment made	CCGs do not have infection control nurses but amendment made to cover CCGs
36	Not West Lancs CCG, provided for by NHSE	Chapter 5 - Section 5.15- Community pharmacy minor ailments service	CPL	Formatting /data correction	no action needed	The scheme is commissioned and run by the CCG

Appendix 8: Draft PNA advert in pharmacies

Assessing local pharmacy needs

Your chance to comment

We want your feedback on our draft **Pharmaceutical Needs Assessment**.

It looks at:

- local pharmacies and their services
- current health needs of the population
- any potential gaps in services in pharmacies

Have your say before 9 February 2018

by visiting our website to see the draft document:
www.lancashire.gov.uk/haveyoursay

Your feedback will help Lancashire's health and wellbeing boards decide on the final content of the Pharmaceutical Needs Assessment so that it will be ready for publication in April 2018.

ⁱ Office for National Statistics: Super Output Areas (SOAs). <http://www.ons.gov.uk/ons/guide-method/geography/beginner-s-guide/census/super-output-areas--soas-/index.html>
