

Our strategy for 2019—2021

The **SEND Partnership** brings together all the agencies in Lancashire which provide SEND services for children, young people, their parents and carers, with representatives from those who use the services.

The vision

We are working hard to make sure that we can make a difference in these ways:

- We are passionate about planning for and meeting the needs of children and young people with SEND
- We will work together as equals who understand and listen to each other
- We will ensure that our services are child centred, accessible and responsive
- We want children or young adults to achieve their potential and ambitions

The strategy

Over the next two years, with your help, we will focus on four main priority areas:

Priority 1: Plan for and meet your child or young adults needs

Priority 2: Understand and listen to each other

Priority 3: Develop child centred, accessible and responsive services

Priority 4: Help them to achieve their potentials and ambitions

Our five step approach

One vision for the future

Two-way communication model

Three shared values – Inclusion, Integrity and Respect

Four strategic priorities for action

Five principles in SEND Code of Practice (2015)

How will we do it?

We will deliver your priorities by:

- Improving our information and keep on talking to each other
- Developing services that are more accessible and responsive
- Working together to prepare children and young people for adult life
- Supporting you to make your own choices, so that you can enjoy life as independently as possible
