Date: 16<sup>th</sup> September 2019

Dear Sir/Madam

**RE: Proposed changes to pricing and allocation of parking permits**

I am writing to confirm that Lancashire County Council's cabinet has agreed changes to residents' parking schemes to make them work fairly and consistently across the county.

The cost of a permit and types of permits available previously varied as the schemes were established by different district councils. The changes means there will be a standard price of £25 for annual permits.

The new scheme will also replace the scratch card visitor permits which means that, where the individual scheme allows, people can buy permits which can be used for a full year. These permits will be charged at the standard £25 administration fee which applies to all other resident parking permits.

To support environmental challenges there will be no charge for permits for vehicles that are powered solely by an electric battery.

The attached notice outlines the changes that will be effective from **7th October 2019**.

Please also find attached the terms and conditions which apply to all Lancashire wide resident permit schemes.

Yours faithfully

Chris Nolan  
Traffic Regulation Officer
