

LANCASHIRE & SOUTH CUMBRIA JOINT TRAINING PARTNERSHIP

Lancashire and South Cumbria Joint Training Partnership Launch Event

Wednesday 18th December

9.30am to 12.30pm

Venue: Gujarat Hindu Society Centre, South Meadow Lane, Preston, PR1 8JN

We are pleased to invite partners and stakeholders to the launch of the Lancashire and South Cumbria Joint Training Partnership (JTP) on Wednesday 18th December 9.30am to 12.30pm.

One of Lancashire and South Cumbria's key priorities for the Learning Disability workforce strategy has been to develop a Joint Training Partnership (JTP). We believe that the JTP will give health and social care providers and other partners a clear and accessible route for quality assured and consistent training, a hub to find out about a wide range of training and development opportunities and to do so in a way that will provide real value for money.

The launch event will provide an opportunity to receive an update about the Learning Disability Transforming Care Partnership's workforce strategy and hear from Skills for Health, Skills for Care and Health Education England about the latest developments in workforce training and development. There will be time to learn about the JTP and how it can support partners to meet the challenging workforce and training requirements of the NHS Long Term Plan.

LANCASHIRE & SOUTH CUMBRIA JOINT TRAINING PARTNERSHIP

There will be a chance to discuss and share training needs, to identify strengths and gaps in knowledge, skills and confidence that could be addressed by the JTP programme. This is an important first step in influencing the ongoing development of the JTP, making sure that it delivers a training programme that really meet the identified needs of all partners.

Who should attend?

- Health and social care providers including residential, supported living and domiciliary care providers.
- Health and social care commissioners
- Educators
- Service managers
- Self-advocates
- Registered managers
- Anyone with a lead for training and workforce development within their organisation
- Family members and people using personal budgets support
