Weekly update for coronavirus figures in the county

Wednesday 15 July 2020

How is coronavirus affecting people in Lancashire?

This is a weekly bulletin produced by the Lancashire Resilience Forum with the latest figures on the number of coronavirus-related cases and deaths in the county, as well as figures at a unitary and district level.
It also shows how Lancashire compares to other areas of the country.

Lancashire Resilience Forum

Cumulative number of lab-confirmed cases under pillar 1 and pillar 2 up to 12 July
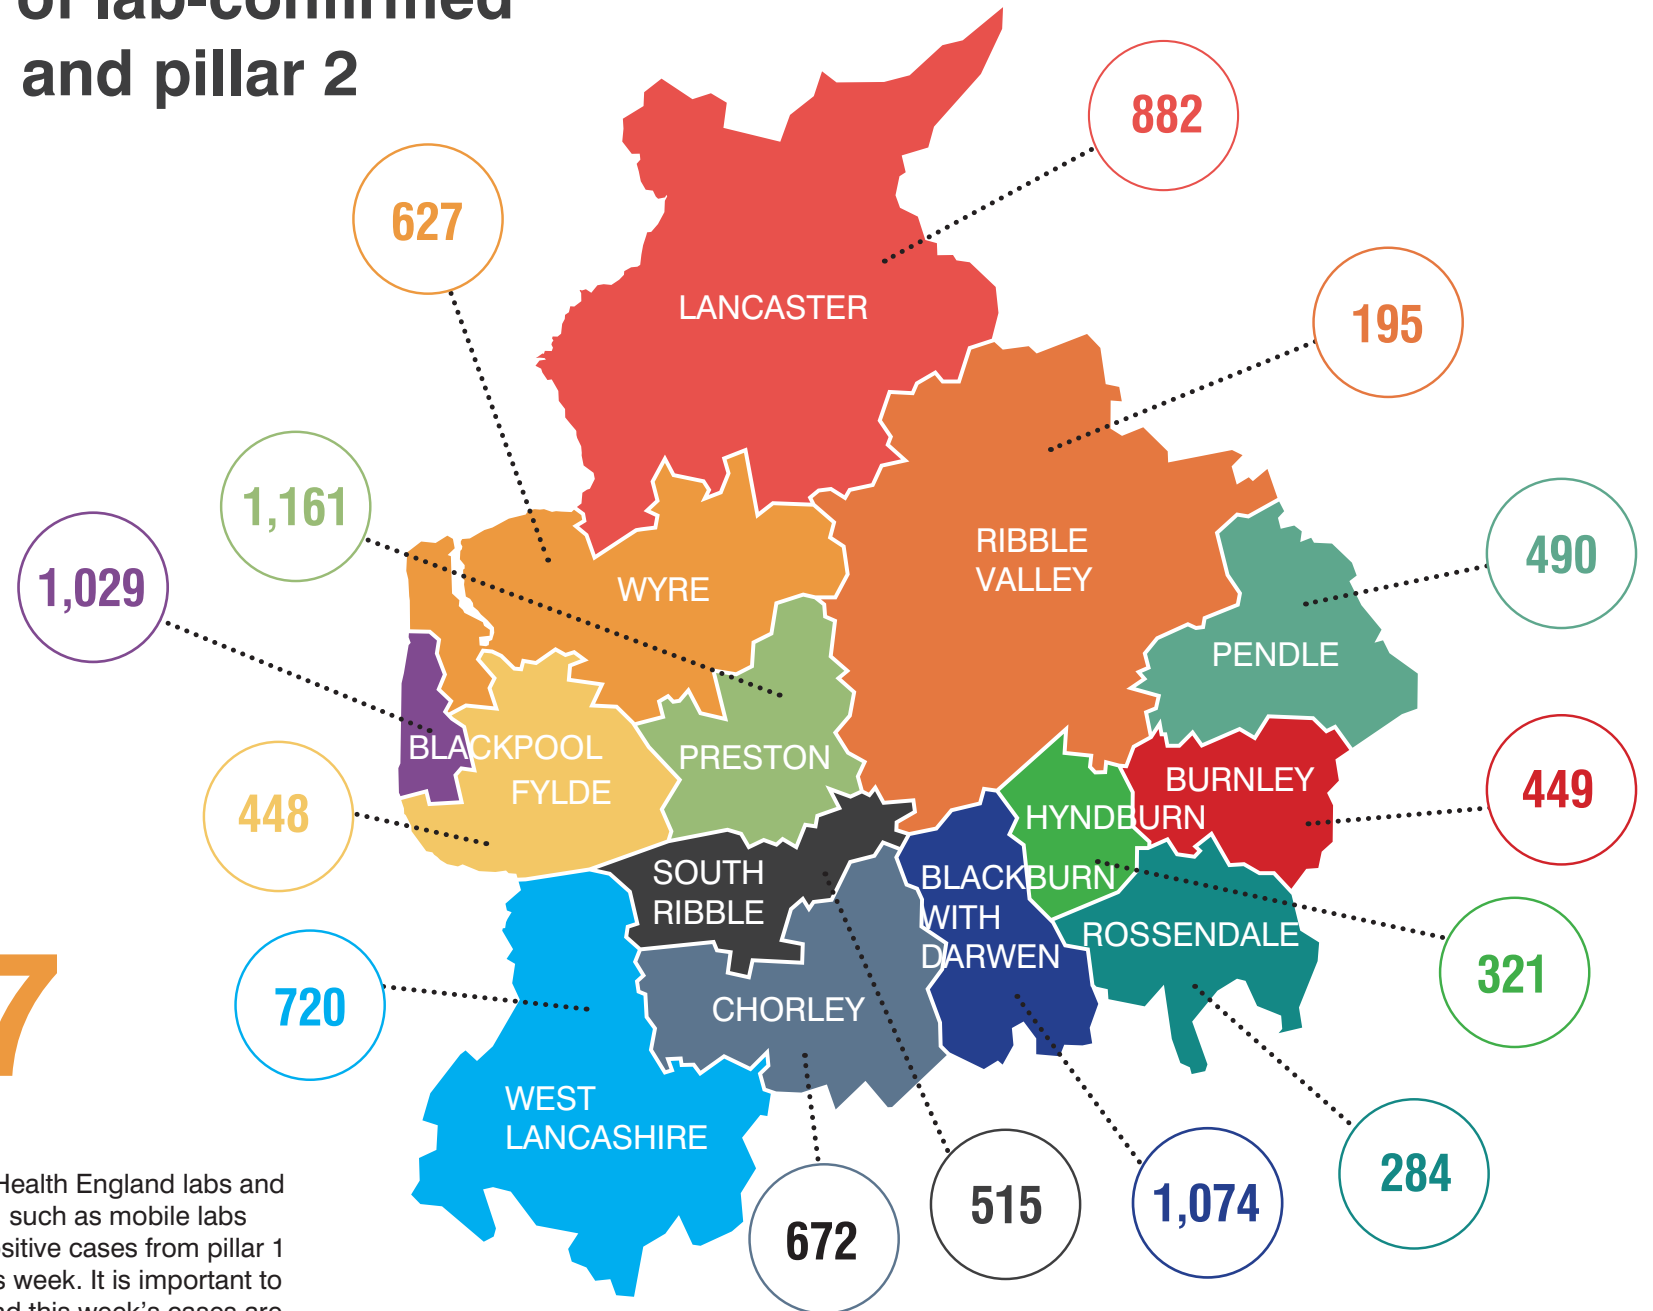

**LANCASHIRE**

8,867
NORTH WEST

43,544

ENGLAND

250,007

These figures are from tests carried out in Public Health England labs and in the NHS (Pillar 1) and from other testing routes, such as mobile labs (Pillar 2). 24 June and 1 July bulletins included positive cases from pillar 1 only, hence the counts are lower than they are this week. It is important to note that the cases haven't suddenly increased and this week's cases are based on both pillars.

# Daily pillar 1 and pillar 2 lab-confirmed cases to 12 July

Positive tests are counted on the day a sample was taken.
But this data is only updated when results are known.
This will affect the greyed-out column in the chart.
