

Weekly update for coronavirus figures in the county

Wednesday 16 September 2020

How is coronavirus affecting people in Lancashire?

This is a weekly bulletin produced by the Lancashire Resilience Forum with the latest figures on the number of coronavirus-related cases and deaths in the county, as well as figures at a unitary and district level.

It also shows how Lancashire compares to other areas of the country.

Confirmed cases from positive 'pillar 1 and 2' tests up to 13 September 2020

LANCASHIRE

12,614

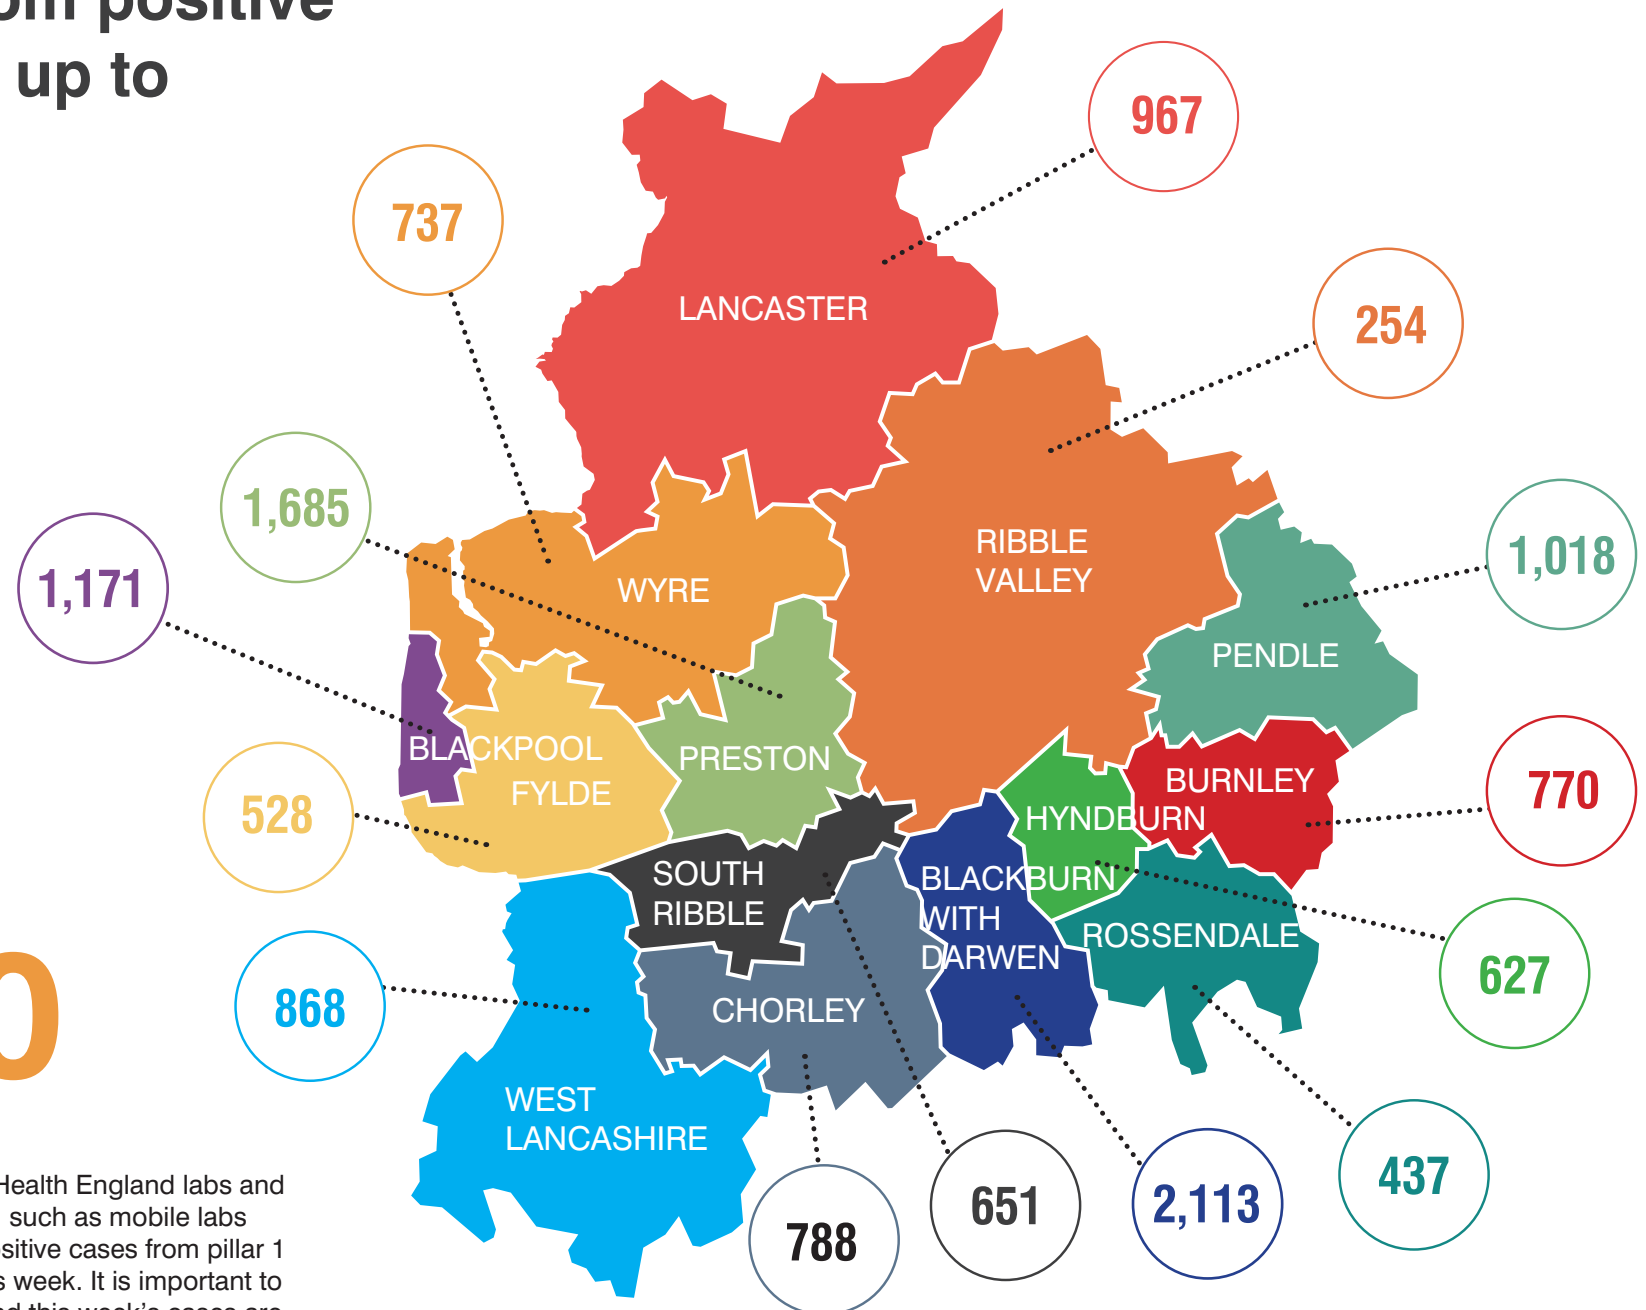

NORTH WEST

61,277

ENGLAND

320,380

These figures are from tests carried out in Public Health England labs and in the NHS (Pillar 1) and from other testing routes, such as mobile labs (Pillar 2). 24 June and 1 July bulletins included positive cases from pillar 1 only, hence the counts are lower than they are this week. It is important to note that the cases haven't suddenly increased and this week's cases are based on both pillars.

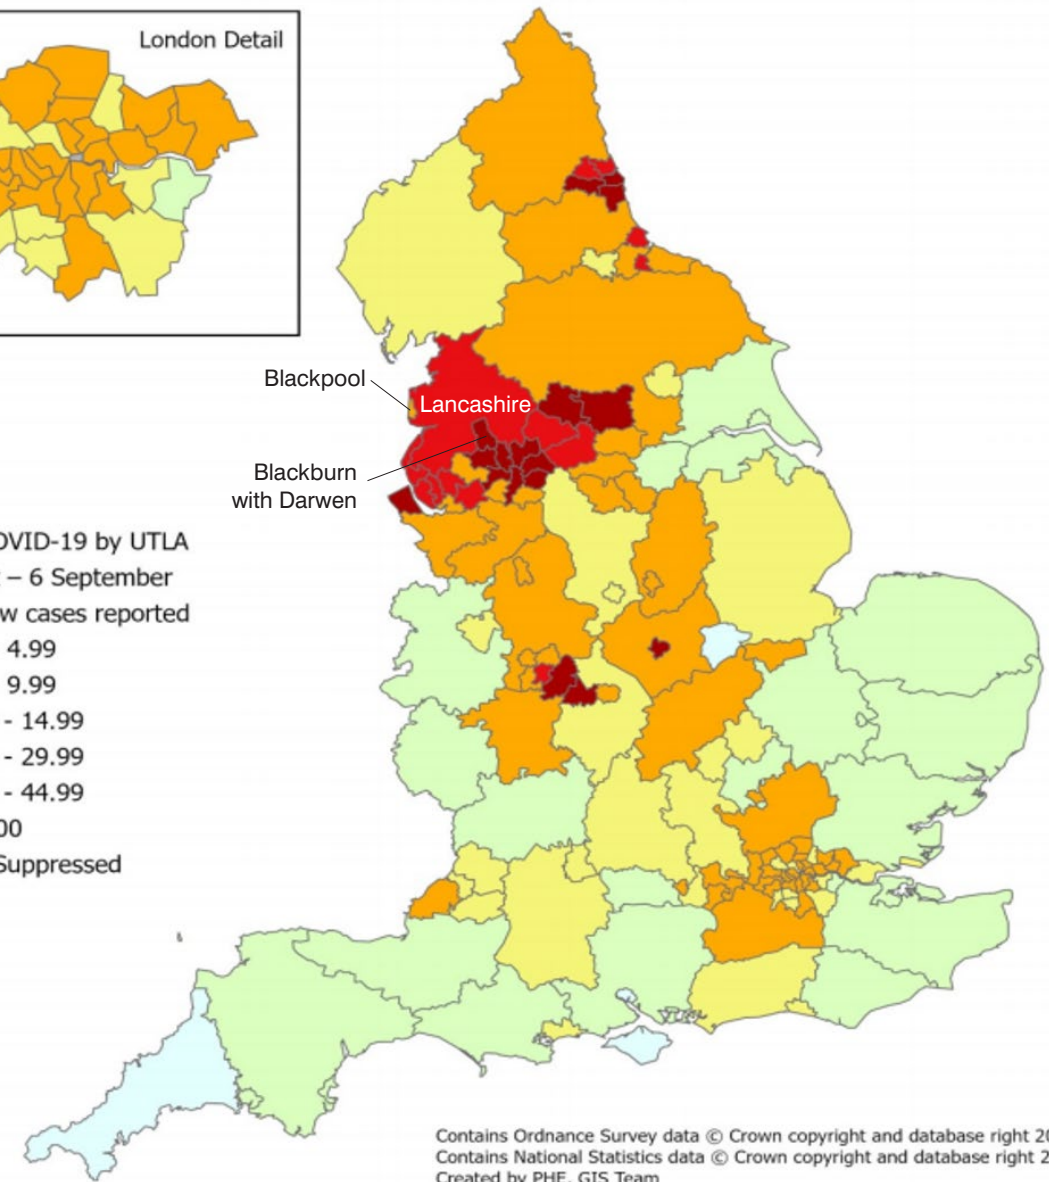

Weekly rate of Covid-19 cases per 100,000 population tested under pillar 1 and pillar 2 (Week 36 - data between 31 August and 6 September 2020).

Rate of COVID-19 by UTLA
31 August – 6 September

- No new cases reported
- 0.01 - 4.99
- 5.00 - 9.99
- 10.00 - 14.99
- 15.00 - 29.99
- 30.00 - 44.99
- ≥ 45.00
- Data Suppressed

For rate of cases detected via Pillar 1 & 2 testing:
Blackpool is in the second lowest category
Lancashire is in the third lowest category
Blackburn with Darwen is in the highest category

Pillar 1 = swab testing in PHE labs & NHS hospitals for those with a medical need and key workers & their families
Pillar 2 = testing by commercial partners - swab testing for the wider population from out in the community

Cumulative lab-confirmed cases up to 13 September, rate per 100,000

Daily pillar 1 and pillar 2 lab-confirmed cases to 13 September

Positive tests are counted according to the date the sample was taken. However, most swabs taken in recent days will not yet have produced a result, so it is important not to jump to the conclusion that the epidemic is tailing off quicker than it really is. The PHE website cautions that only data from five days or more ago can be considered complete. The greyed-out columns in figure above are liable to be added to as more results come in.

Figures relating to confirmed cases by Upper Tier Local Authority can be downloaded from: <https://coronavirus.data.gov.uk>

Testing and incidence reporting period 04/09/20 - 10/09/20

Local Authority	Individuals Tested per 100,000 (7-Day Moving Average)			Percentage Tested Positive per 100,000 (7-Day Moving Average)			Daily Incidence per 100,00 (7-Day Moving Average)		
Blackburn with Darwen	266.6	262.1	↑	6.6	6.3	↑	122.9	114.8	↑
Blackpool	143.3	132.0	↑	2.3	2.5	↓	23.0	23.0	↓
Burnley	315.8	304.5	↑	4.2	4.5	↓	93.8	94.9	↓
Chorley	167.5	162.9	↑	3.0	3.0	↑	35.1	34.2	↑
Fylde	134.3	125.5	↑	3.1	2.9	↓	28.8	25.1	↓
Hyndburn	299.8	289.2	↑	5.6	5.1	↑	117.6	103.9	↑
Lancaster	118.8	112.4	↑	2.8	2.6	↓	22.9	20.1	↓
Pendle	245.5	239.3	↑	3.6	4.0	↑	61.3	67.8	↑
Preston	285.4	273.7	↑	5.3	5.4	↓	105.1	103.7	↓
Ribble Valley	165.3	159.8	↑	1.6	0.7	↓	18.3	8.3	↓
Rossendale	290.2	296.0	↓	2.8	2.5	↔	57.8	50.8	↔
South Ribble	197.4	197.9	↓	3.8	3.9	↑	52.5	53.4	↑
West Lancashire	149.3	144.0	↓	4.5	4.2	↔	47.4	42.1	↓
Wyre	128.1	123.7	↑	3.8	3.3	↓	34.2	28.8	↓
ENGLAND (26/08/20-01/09/20)	110.5			2.0			15.6		

Due to the reporting delays for comparison between Local Authorities the most recent 4 days are excluded from the calculations of rates and moving averages. Data for specimens taken/outbreaks reported is between September 4 2020 and September 10 2020 (7 day) and the change with the previous 7-day period demonstrate how figures compare to the equivalent figure as of September 3 2020.
