Weekly update for coronavirus figures in the county

Wednesday 23 September 2020

How is coronavirus affecting people in Lancashire?

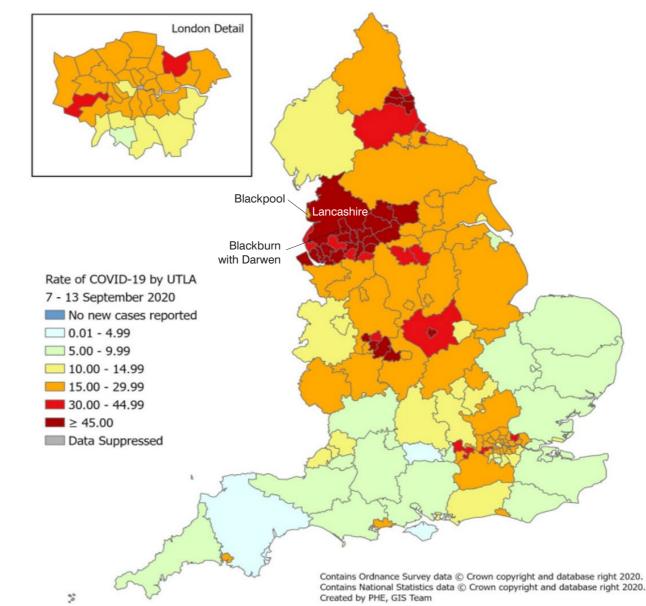

This is a weekly bulletin produced by the Lancashire Resilience Forum with the latest figures on the number of coronavirus-related cases and deaths in the county, as well as figures at a unitary and district level. It also shows how Lancashire compares to other areas of the country.

based on both pillars.

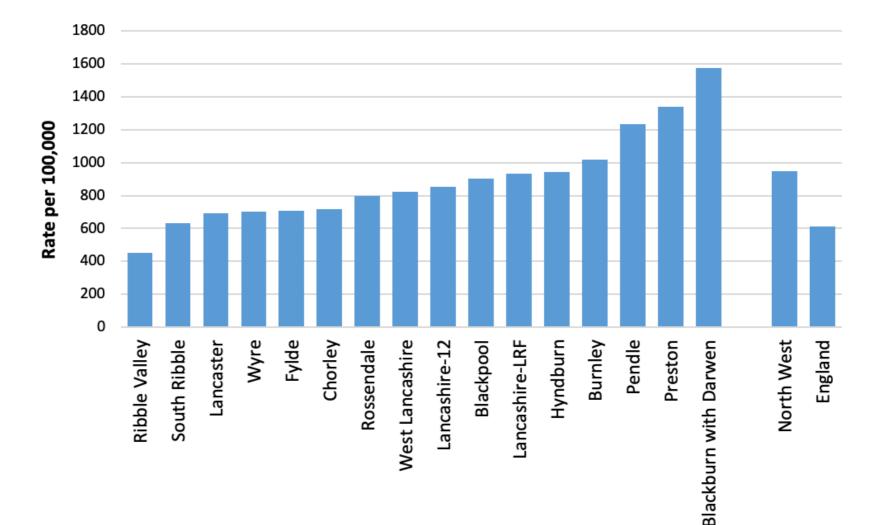

Weekly rate of Covid-19 cases per 100,000 population tested under pillar 1 and pillar 2 (Week 37 - data between 7 September and 13 September 2020).

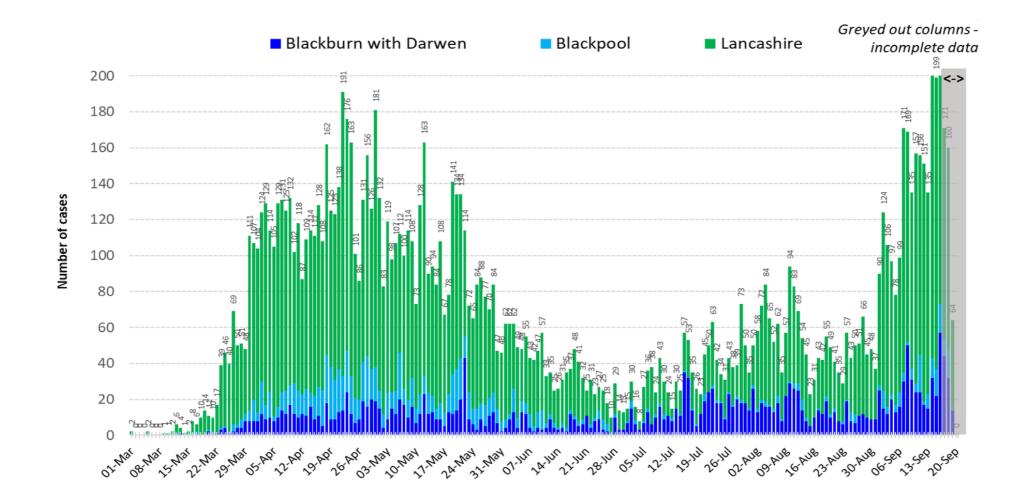

For rate of cases detected via Pillar 1 & 2 testing: Blackpool is in the third highest category. Lancashire and Blackburn with Darwen are in the highest category

Pillar 1 = swab testing in PHE labs & NHS hospitals for those with a medical need and key workers & their familiesPillar 2 = testing by commercial partners - swab testing for the wider population from out in the community

Cumulative lab-confirmed cases up to 20 September, rate per 100,000

Daily pillar 1 and pillar 2 lab-confirmed cases to 20 September

Positive tests are counted according to the date the sample was taken. However, most swabs taken in recent days will not yet have produced a result, so it is important not to jump to the conclusion that the epidemic is tailing off quicker than it really is. The PHE website cautions that only data from five days or more ago can be considered complete. The greyed-out columns in figure above are liable to be added to as more results come in.

Figures relating to confirmed cases by Upper Tier Local Authority can be downloaded from: https://coronavirus.data.gov.uk

Testing and incidence reporting period 13/09/20 - 19/09/20

| Local Authority | Individuals Tested per 100,000 (7-Day Moving Average) | | | | age Tested per 100,000 Moving A |) | Daily Incidence per 100,000 (7-Day Moving Average) | | | |

Weekly deaths occurring up to 11 September, compared with the five-year weekly average

Weekly average (2014 - 2018)

Covid-19 mortality rate, all persons 1 March to 31 July 2020, rate per 100,000

Help share our messages!

Each week we produce a <u>statistical bulletin</u> to show how coronavirus is affecting Lancashire.

Access our <u>range of resources</u> to share on social media to encourage Lancashire people to play their part to combat coronavirus.

> Find out more about the LancsTogether campaign and what you can do to take part.

We are all working together in Lancashire to combat coronavirus.
