

# Weekly update for coronavirus figures in the county

Wednesday 29 September 2020

## How is coronavirus affecting people in Lancashire?

This is a weekly bulletin produced by the Lancashire Resilience Forum with the latest figures on the number of coronavirus-related cases and deaths in the county, as well as figures at a unitary and district level.

It also shows how Lancashire compares to other areas of the country.

# Confirmed cases from positive 'pillar 1 and 2' tests up to 27 September 2020

LANCASHIRE

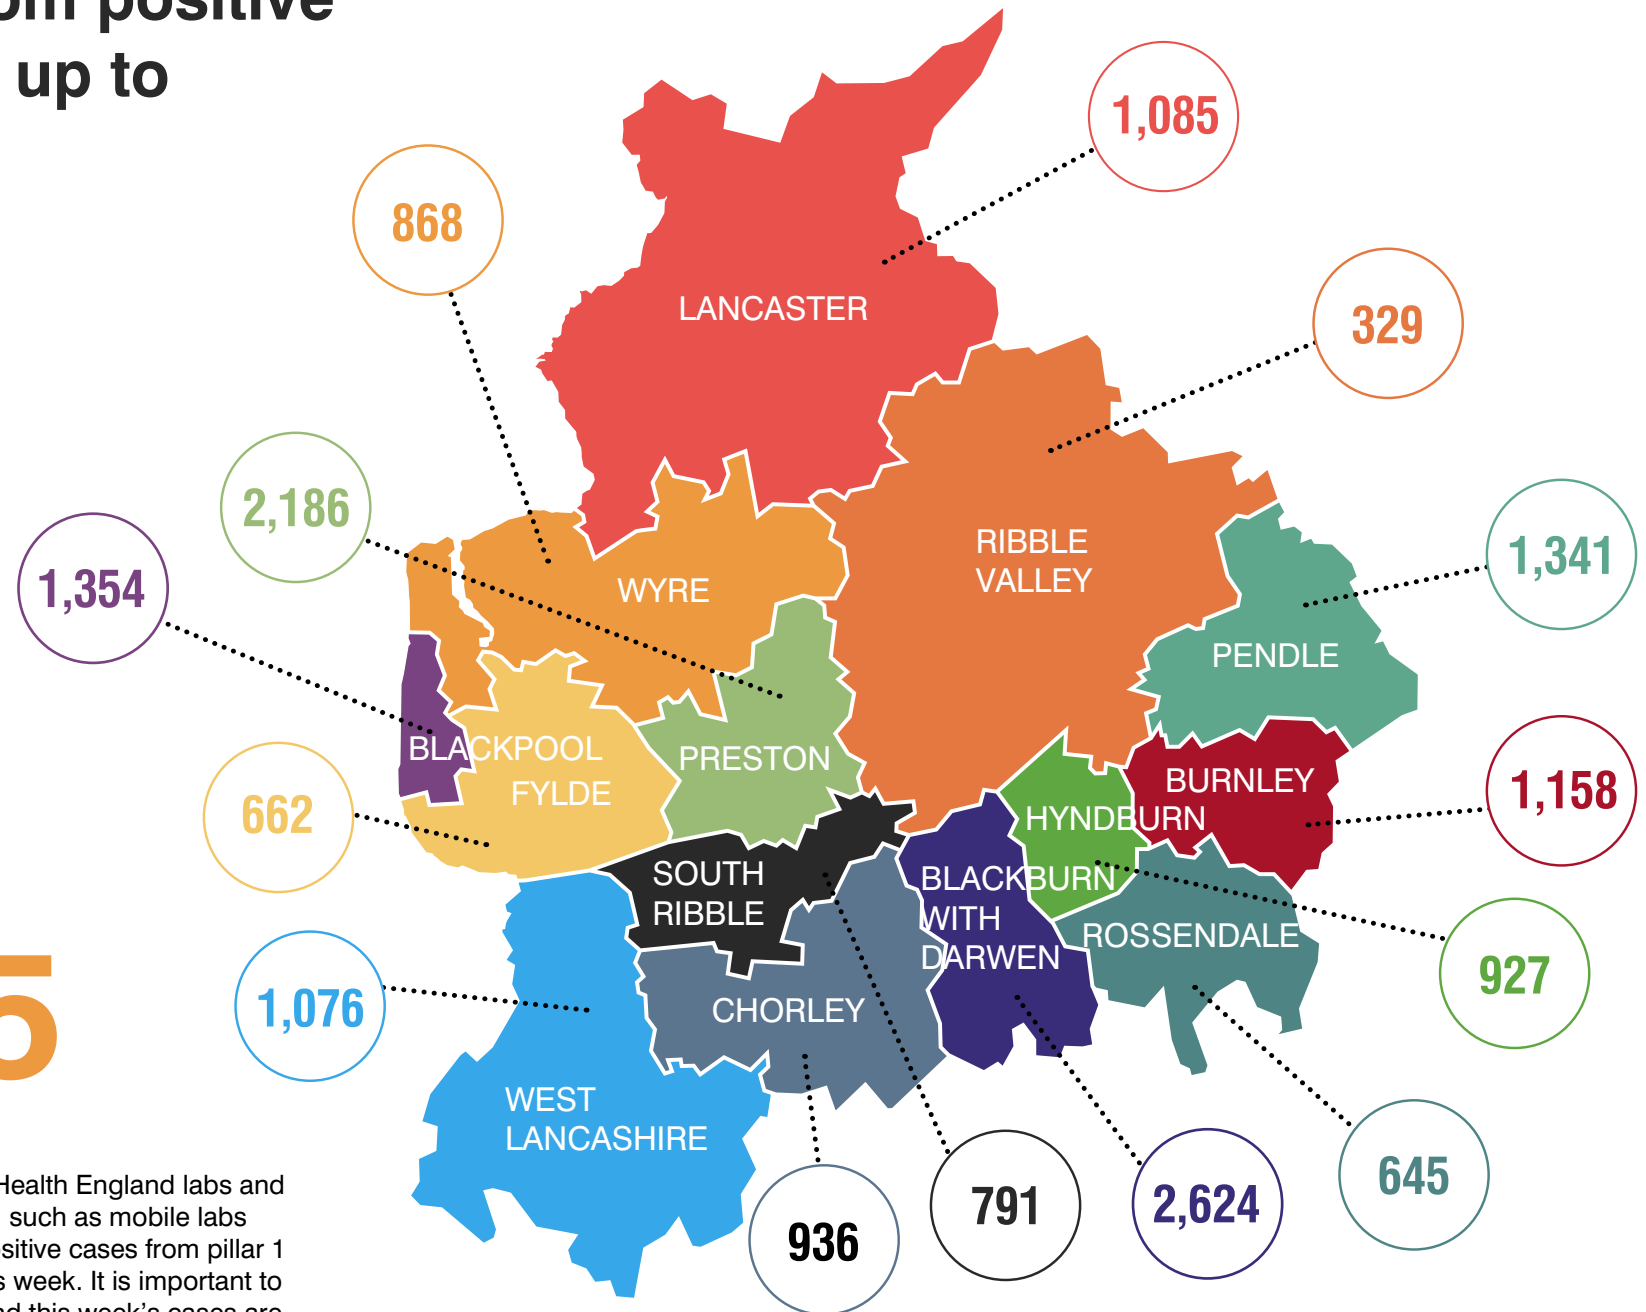

15,982

NORTH WEST

80,555

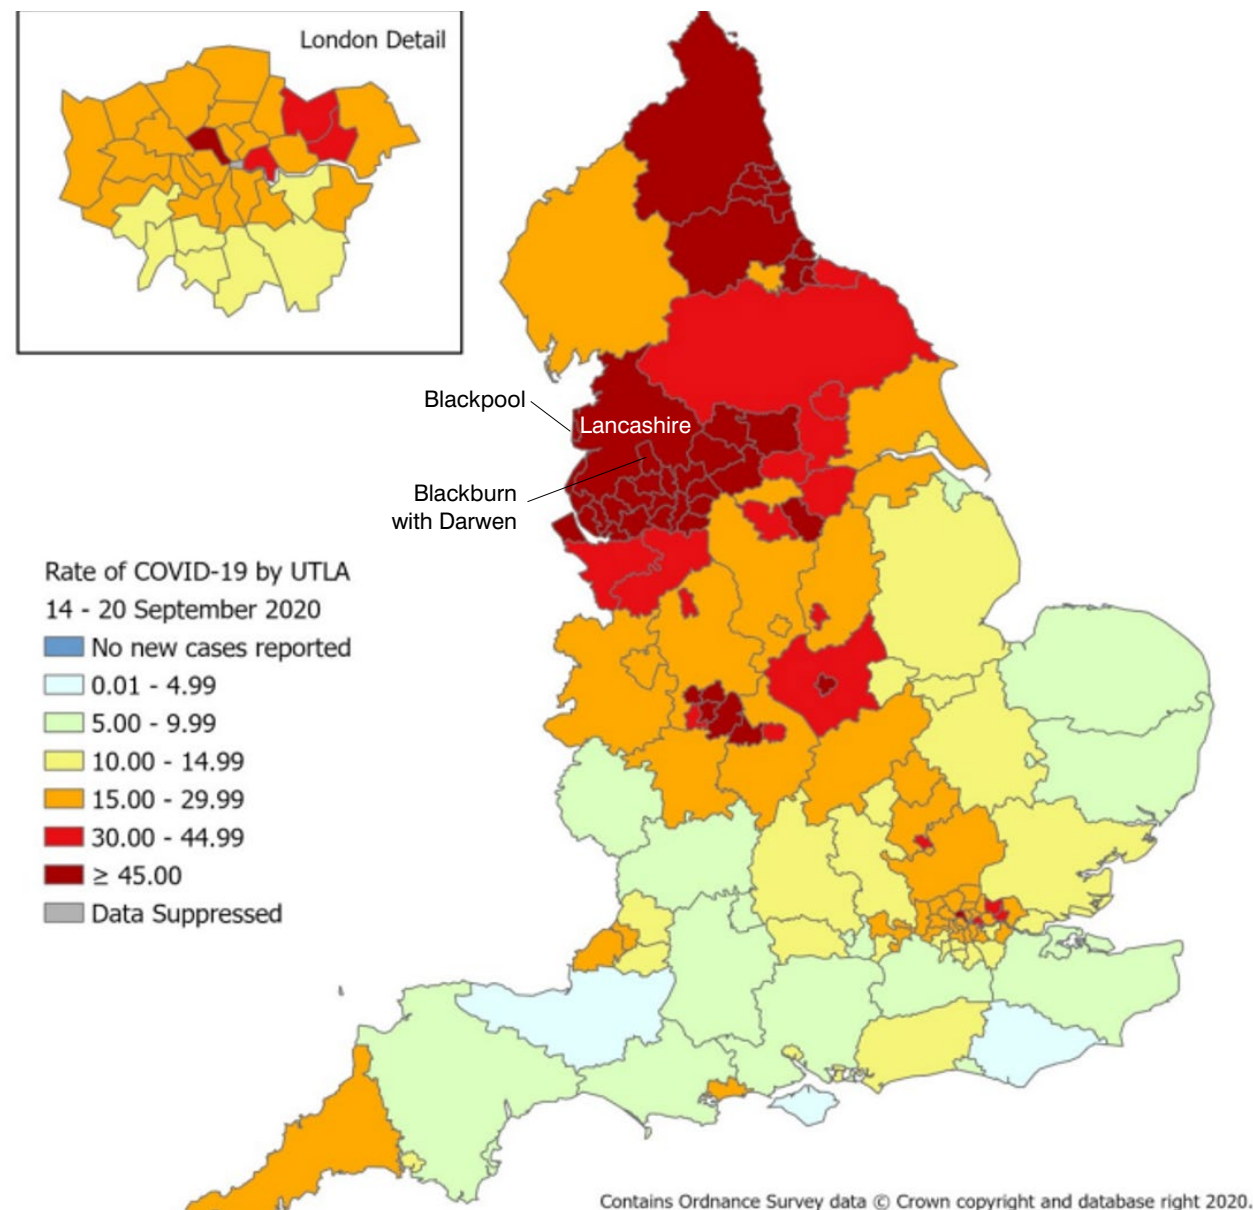

ENGLAND

377,035

These figures are from tests carried out in Public Health England labs and in the NHS (Pillar 1) and from other testing routes, such as mobile labs (Pillar 2). 24 June and 1 July bulletins included positive cases from pillar 1 only, hence the counts are lower than they are this week. It is important to note that the cases haven't suddenly increased and this week's cases are based on both pillars.

# Weekly rate of Covid-19 cases per 100,000 population tested under pillar 1 and pillar 2 (Week 38 - data between 14 September and 20 September 2020).

For rate of cases detected via Pillar 1 & 2 testing:  
Blackpool, Blackburn with Darwen and Lancashire are in the highest category

Pillar 1 = swab testing in PHE labs & NHS hospitals for those with a medical need and key workers & their families  
Pillar 2 = testing by commercial partners - swab testing for the wider population from out in the community

# Cumulative lab-confirmed cases up to 27 September, rate per 100,000

# Daily pillar 1 and pillar 2 lab-confirmed cases to 27 September

Positive tests are counted according to the date the sample was taken. However, most swabs taken in recent days will not yet have produced a result, so it is important not to jump to the conclusion that the epidemic is tailing off quicker than it really is. The PHE website cautions that only data from five days or more ago can be considered complete. The greyed-out columns in figure above are liable to be added to as more results come in.
