

Weekly update for coronavirus figures in the county

11 August 2021

How is coronavirus affecting people in Lancashire?

This is a weekly bulletin produced by the Lancashire Resilience Forum with the latest figures on the number of coronavirus-related cases and deaths in the county, as well as figures at a unitary and district level.

It also shows how Lancashire compares to other areas of the country.

**Lancashire
Resilience
Forum**

Confirmed cases from positive 'pillar 1 and 2' tests up to 8 August 2021

LANCASHIRE

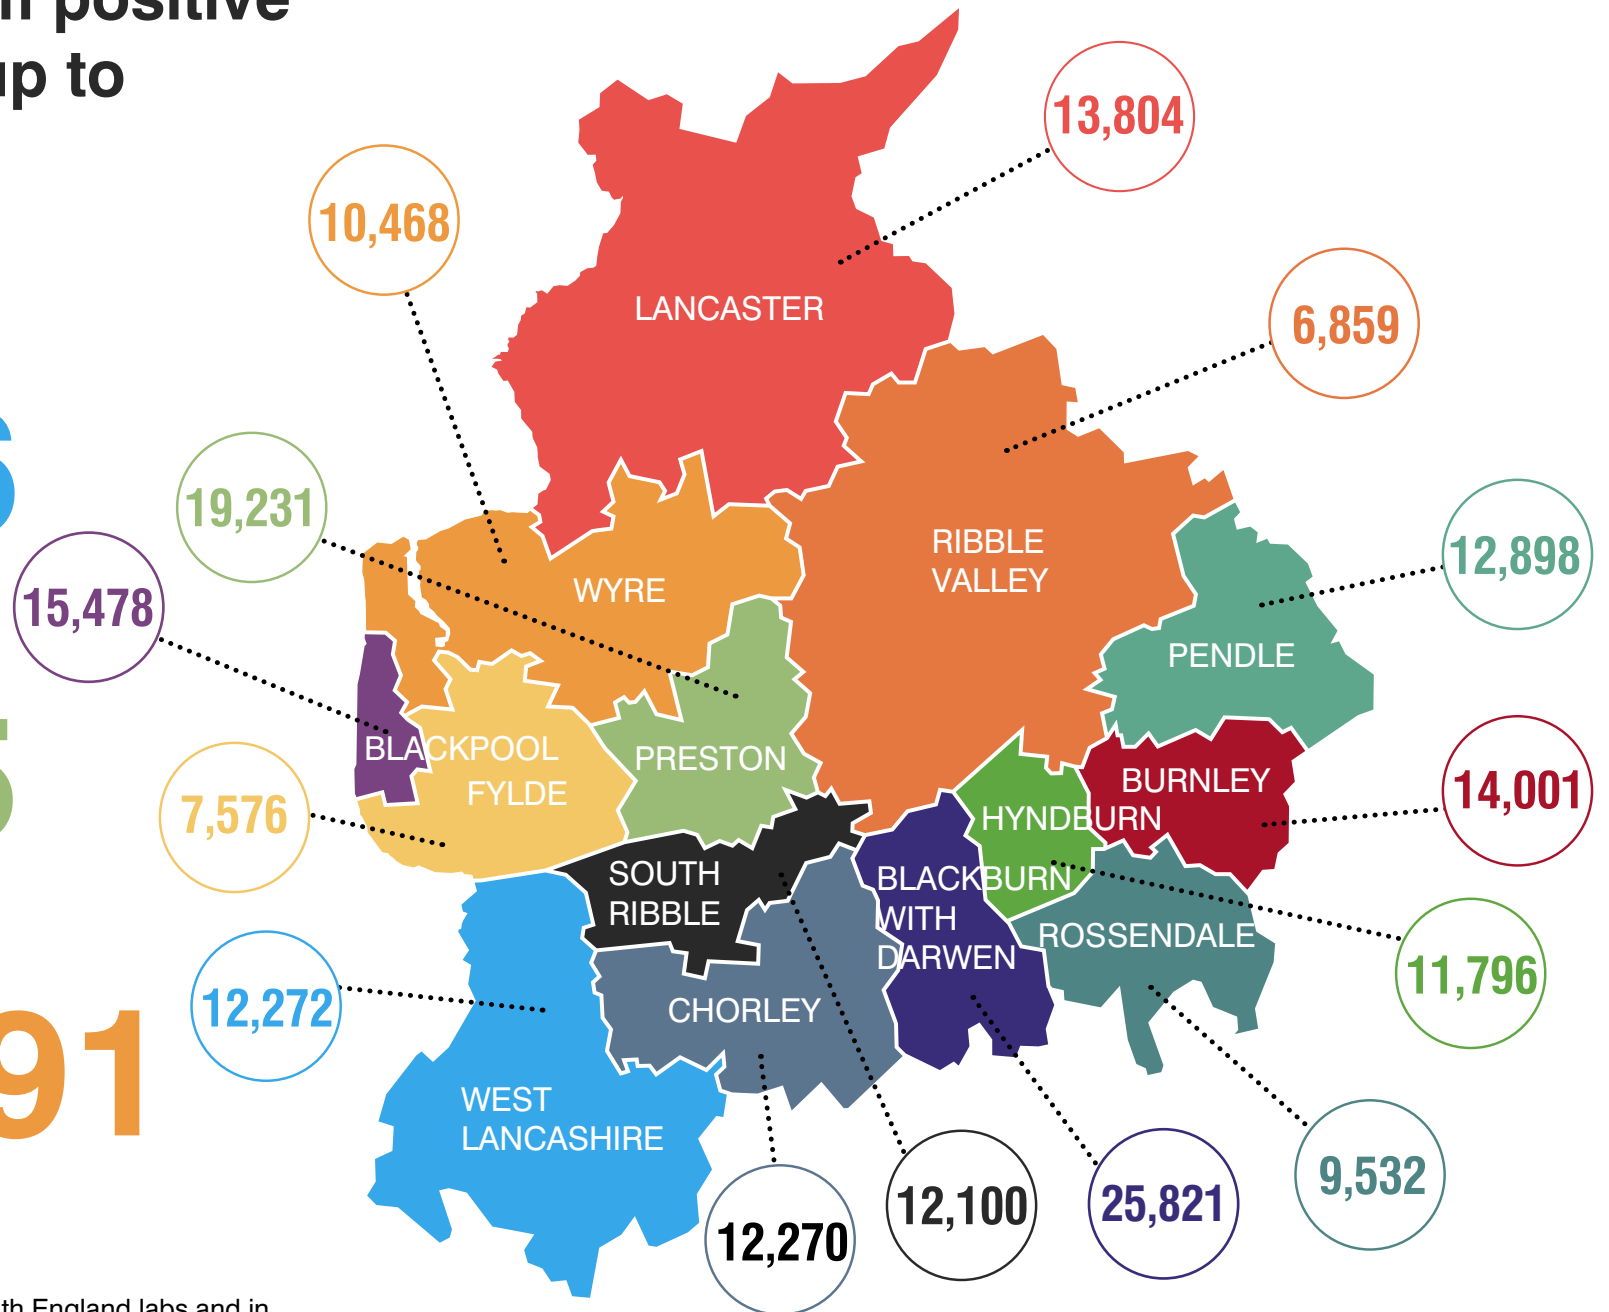

184,106

NORTH WEST

870,345

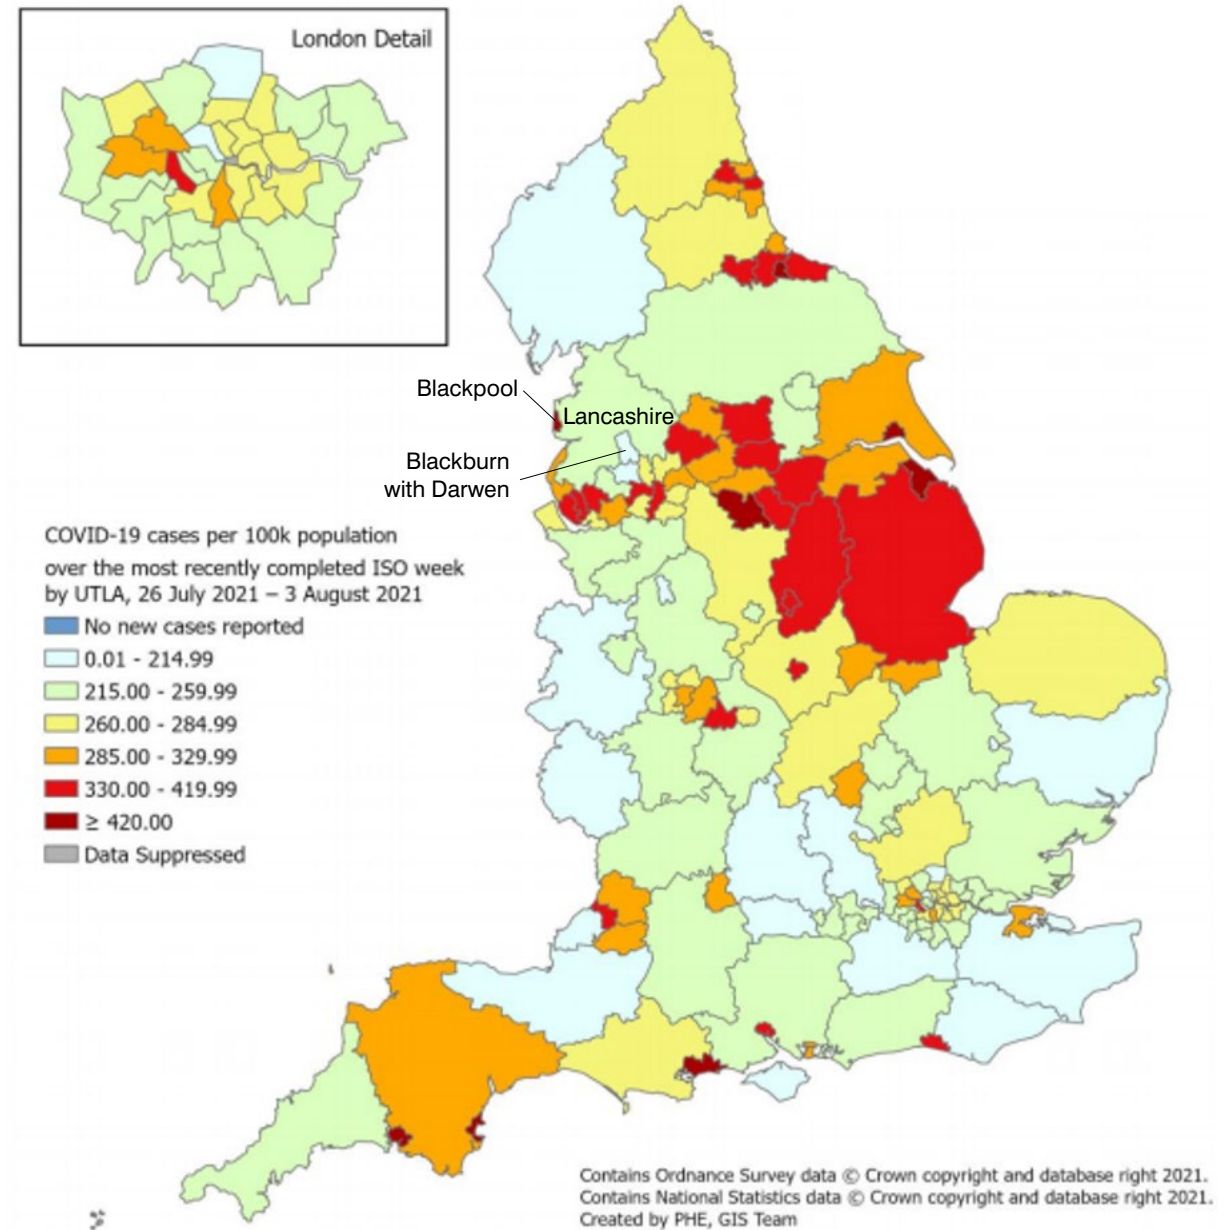

ENGLAND

5,324,191

These figures are from tests carried out in Public Health England labs and in the NHS (Pillar 1) and from other testing routes, such as mobile labs (Pillar 2).

Weekly rate of Covid-19 cases per 100,000 population tested under pillar 1 and pillar 2 (Week 30 - data between 26 June and 3 August 2021).

For rate of cases detected via Pillar 1 & 2 testing:
Blackpool rates are in the second band, Lancashire rates are in the fifth highest band and Blackburn rates are in the sixth highest band.

Pillar 1 = swab testing in PHE labs & NHS hospitals for those with a medical need and key workers & their families

Pillar 2 = testing by commercial partners - swab testing for the wider population from out in the community

Cumulative lab-confirmed cases up to 8 August 2021, rate per 100,000

Daily pillar 1 and pillar 2 lab-confirmed cases to 8 August 2021

Positive tests are counted according to the date the sample was taken. However, most swabs taken in recent days will not yet have produced a result, so it is important not to jump to the conclusion that the epidemic is tailing off quicker than it really is. The PHE website cautions that only data from five days or more ago can be considered complete. The greyed-out columns in figure above are liable to be added to as more results come in.

Figures relating to confirmed cases by Upper Tier Local Authority can be downloaded from: <https://coronavirus.data.gov.uk>

Testing and incidence

Specimens taken/outbreaks reported between 29 July - 4 August 2021

Local Authority	Individuals Tested per 100,000 (7-Day Moving Average)			Percentage Tested Positive per 100,000 (7-Day Moving Average)			All Ages				60+ Years				
							Daily Incidence per 100,000 (7-Day Moving Average)		Confirmed Cases (Last 7 Days)	Seven-Day Change in Case Rate	Daily Incidence per 100,000 (7-Day Moving Average)		Confirmed Cases (Last 7 Days)		
Blackburn with Darwen	432.8	426.3	↑	5.3	5.3	↔	152.6	150.6	↑	229	-30.0%	70.6	67.2	↑	21

West Lancashire	519.9	526.3	↓	8.4	8.5	↓	292.6	304.8	↓	335	-15.0%	127.7	118.6	↑	42
Wyre	587.5	573.6	↑	7.1	7.6	↓	278.6	290.1	↓	315	-22.0%	85.7	78.2	↑	34
North West	482.0			8.7			284.3					105.1			
England	523.5			8.1			286.9					88.5			

Due to the reporting delays for comparison between Local Authorities the most recent 4 days are excluded from the calculations of rates and moving averages.

Single direction-of-travel arrows denote a percentage change of less than 10%.
Twin arrows denote a change of greater than 10%.

Count of deaths identified as Covid-19 on death certificates and occurred up to 30 July but were registered up to 7 August 2021

LANCASHIRE

TOTAL 4,427

Up to the 30 July, the number of deaths where COVID-19 was mentioned on the death certificate:
 4,427 registered in the Lancashire LRF area
 3,455 registered in the Lancashire County Council area

Source: Office for National Statistics (ONS)

Weekly deaths occurring up to 30 July, compared with the five-year weekly average

Non-Covid deaths
 Covid deaths

Total deaths
 Weekly average (2015 - 2019)

Deaths due to Covid-19* - age standardised rate per 100,000 population, all persons - March 2020 to April 2021

Blackburn with Darwen and Blackpool's COVID-19 mortality rate is significantly higher than the England rate.

The Lancashire County Council area's rate is also significantly higher than England.

Along with the Lancashire County Council area, the individual authorities of Burnley, Pendle, Preston and Hyndburn are significantly higher than England.

Only Lancaster's rate is significantly lower than the England rate.

Standardised mortality rates are used to allow comparisons between populations that may contain different proportions of people of different ages.

*Deaths registered where Covid-19 was the underlying (main) cause of death

Source: Office for National Statistics (ONS)

Population/cohort size (denominator) definitions

The estimates of population size can be used as a denominator to approximate or calculate vaccination coverage percentages. Two denominators are used:

1- Office for National Statistics (ONS) 2019 mid-year population estimates are provided as the official statistics and the best publicly available population estimates. These estimates are consistent with the UK COVID-19 vaccines deployment plan and therefore provide a reference point on progress. They are the most accurate estimates available at national level, however they are less robust at smaller areas and are subject to a degree of uncertainty as they are 2019 estimates based on the 2011 Census.

2- National Immunisation Management System (NIMS) denominators are provided for Lower Tier Local Authority (LTLA). NIMS denominators facilitate management of the vaccination programme at more granular levels and should be used when calculating vaccine coverage for public health purposes. NIMS denominators may provide an overcount if individuals are no longer resident in England, but may also be subject to some undercounting as they currently do not include individuals without an NHS number. Coverage can be viewed as being 'at least' the figures presented using the NIMS denominator. The NIMS denominators are based on the resident population and therefore people will be counted in the denominators if they live in England, even if their GP practice is in Wales or Scotland and they receive their vaccination outside of England. Therefore, when looking at lower levels of geography, areas near the borders may appear to have lower vaccine uptake rates than other areas of England.

Vaccine data

Find out more information about how many people have been vaccinated in your local area, as well as information about the progress of the vaccination programme at:

<https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-vaccinations/>

Local information

There is a wealth of local data is available from

<https://coronavirus.data.gov.uk>

By typing in your postcode you will get a local dashboard which shows a range of information including how many positive cases and deaths there have been, and how your local area compares to the England average.

You can also explore the interactive map for England.

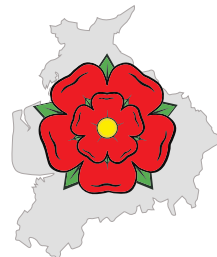

Help share our messages!

Access our [range of resources](#) to share on social media to encourage Lancashire people to play their part to combat coronavirus.

Find out more about the [LancsTogether](#) campaign and what you can do to take part.

We are all working together in Lancashire to combat coronavirus.
