

Weekly update for coronavirus figures in the county

20 October 2021

How is coronavirus affecting people in Lancashire?

This is a weekly bulletin produced by the Lancashire Resilience Forum with the latest figures on the number of coronavirus-related cases and deaths in the county, as well as figures at a unitary and district level.

It also shows how Lancashire compares to other areas of the country.

Confirmed cases from positive 'pillar 1 and 2' tests up to 17 October 2021

LANCASHIRE

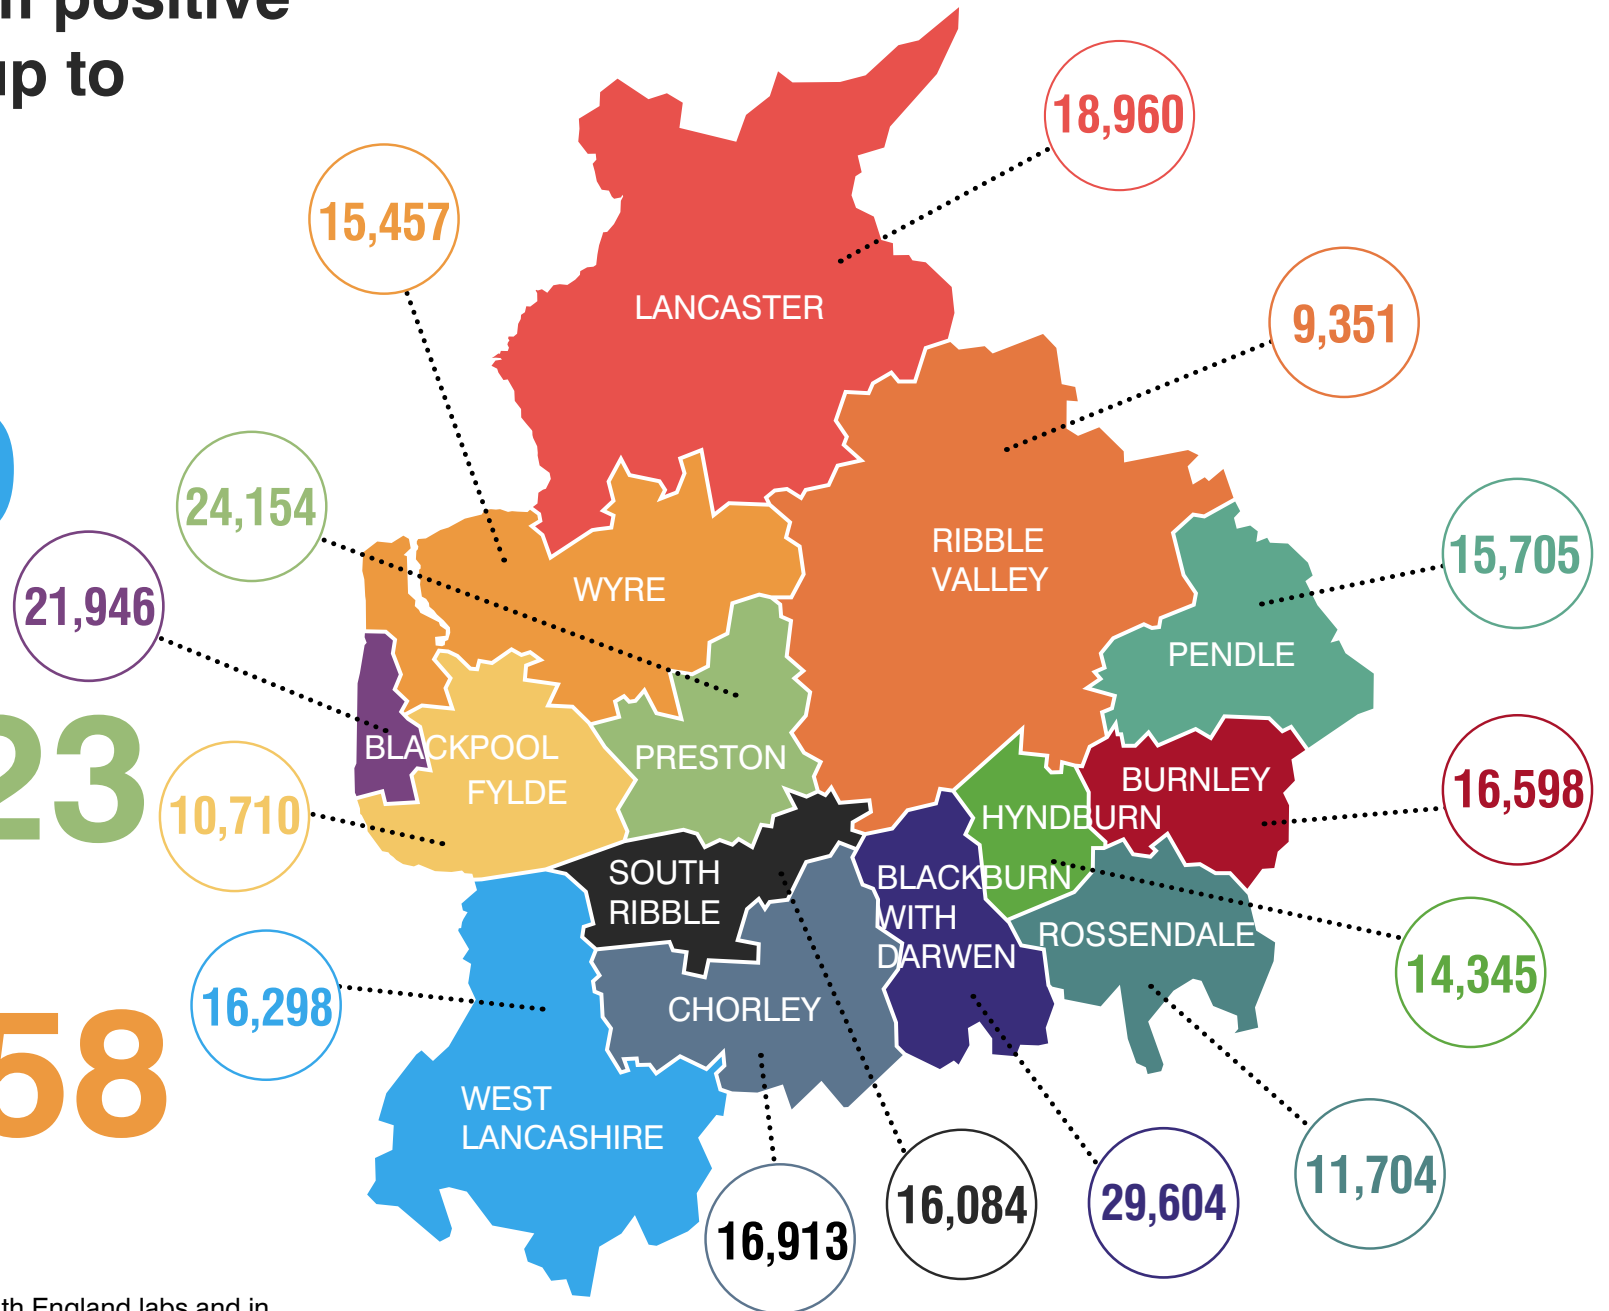

237,829

NORTH WEST

1,133,523

ENGLAND

7,226,658

These figures are from tests carried out in Public Health England labs and in the NHS (Pillar 1) and from other testing routes, such as mobile labs (Pillar 2).

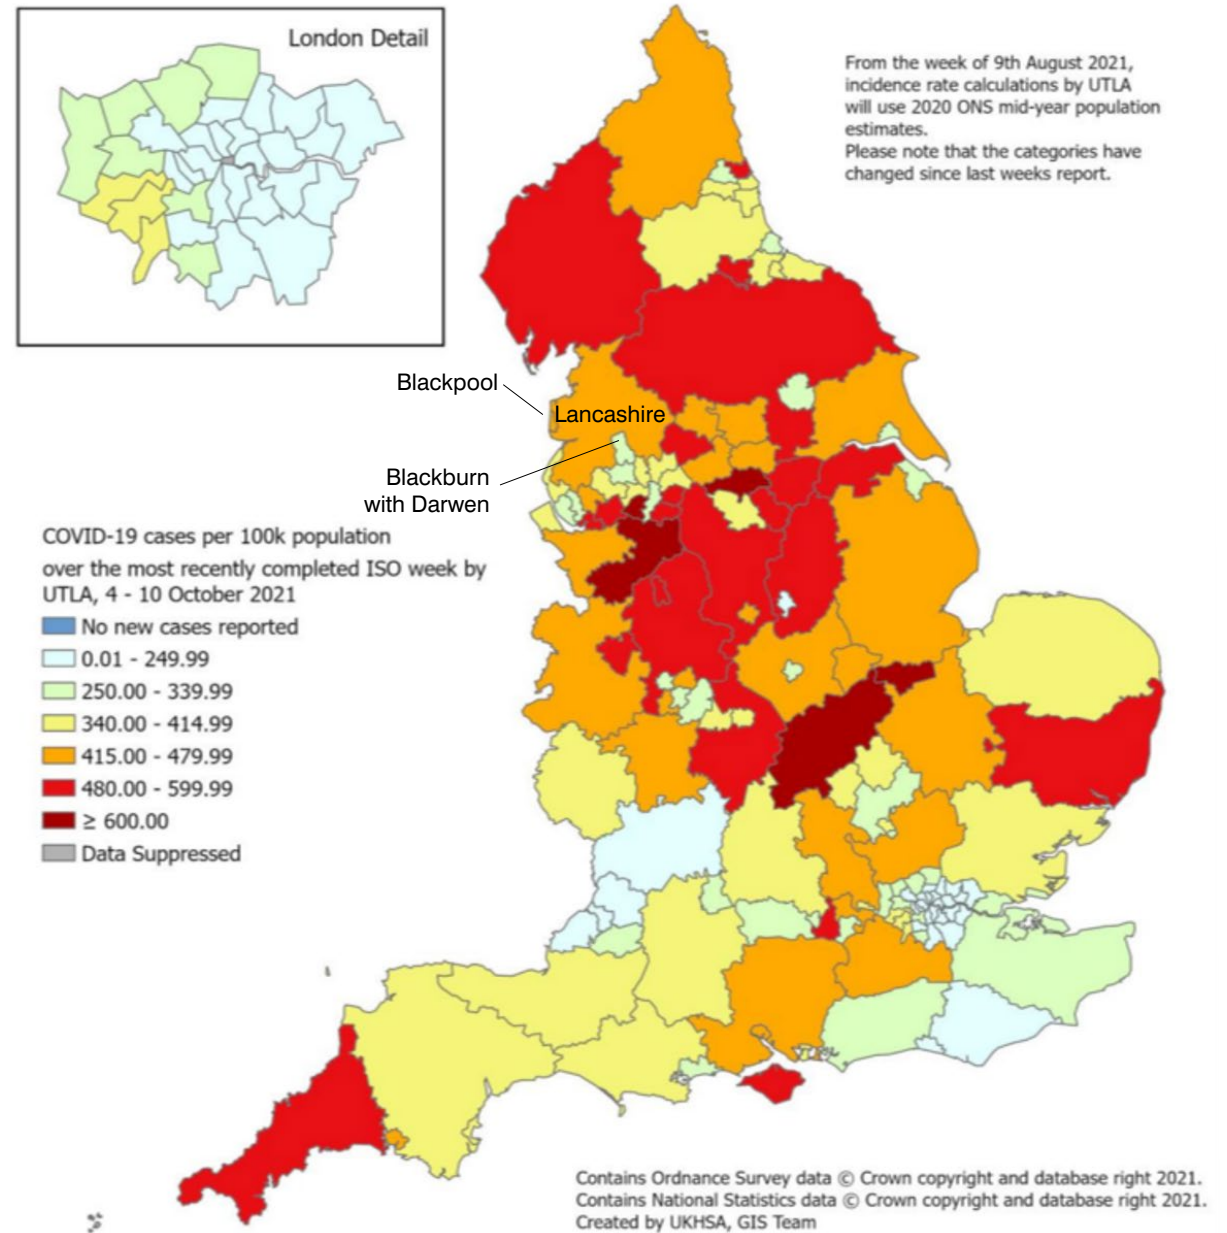

Weekly rate of Covid-19 cases per 100,000 population tested under pillar 1 and pillar 2 (Week 40 - data between 4 October and 10 October 2021).

For rate of cases detected via Pillar 1 & 2 testing:

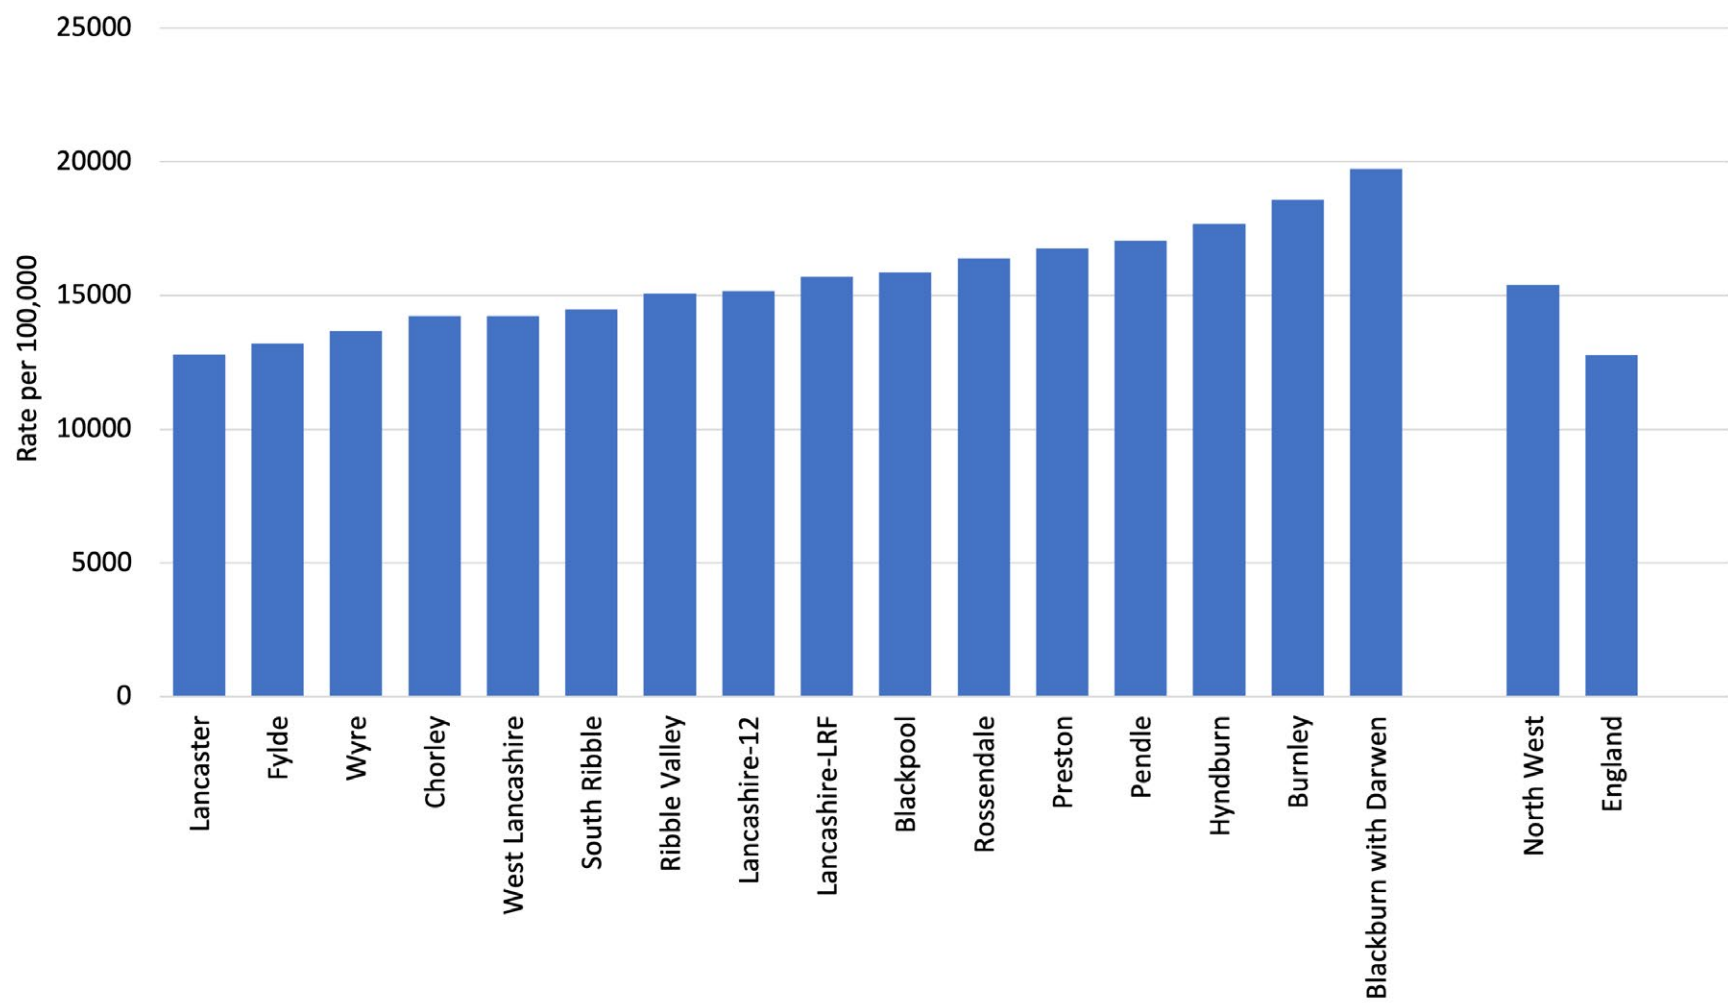

Blackpool's and Lancashire's rate is in the third highest band, and Blackburn's rate is in the lowest band.

Pillar 1 = swab testing in PHE labs & NHS hospitals for those with a medical need and key workers & their families

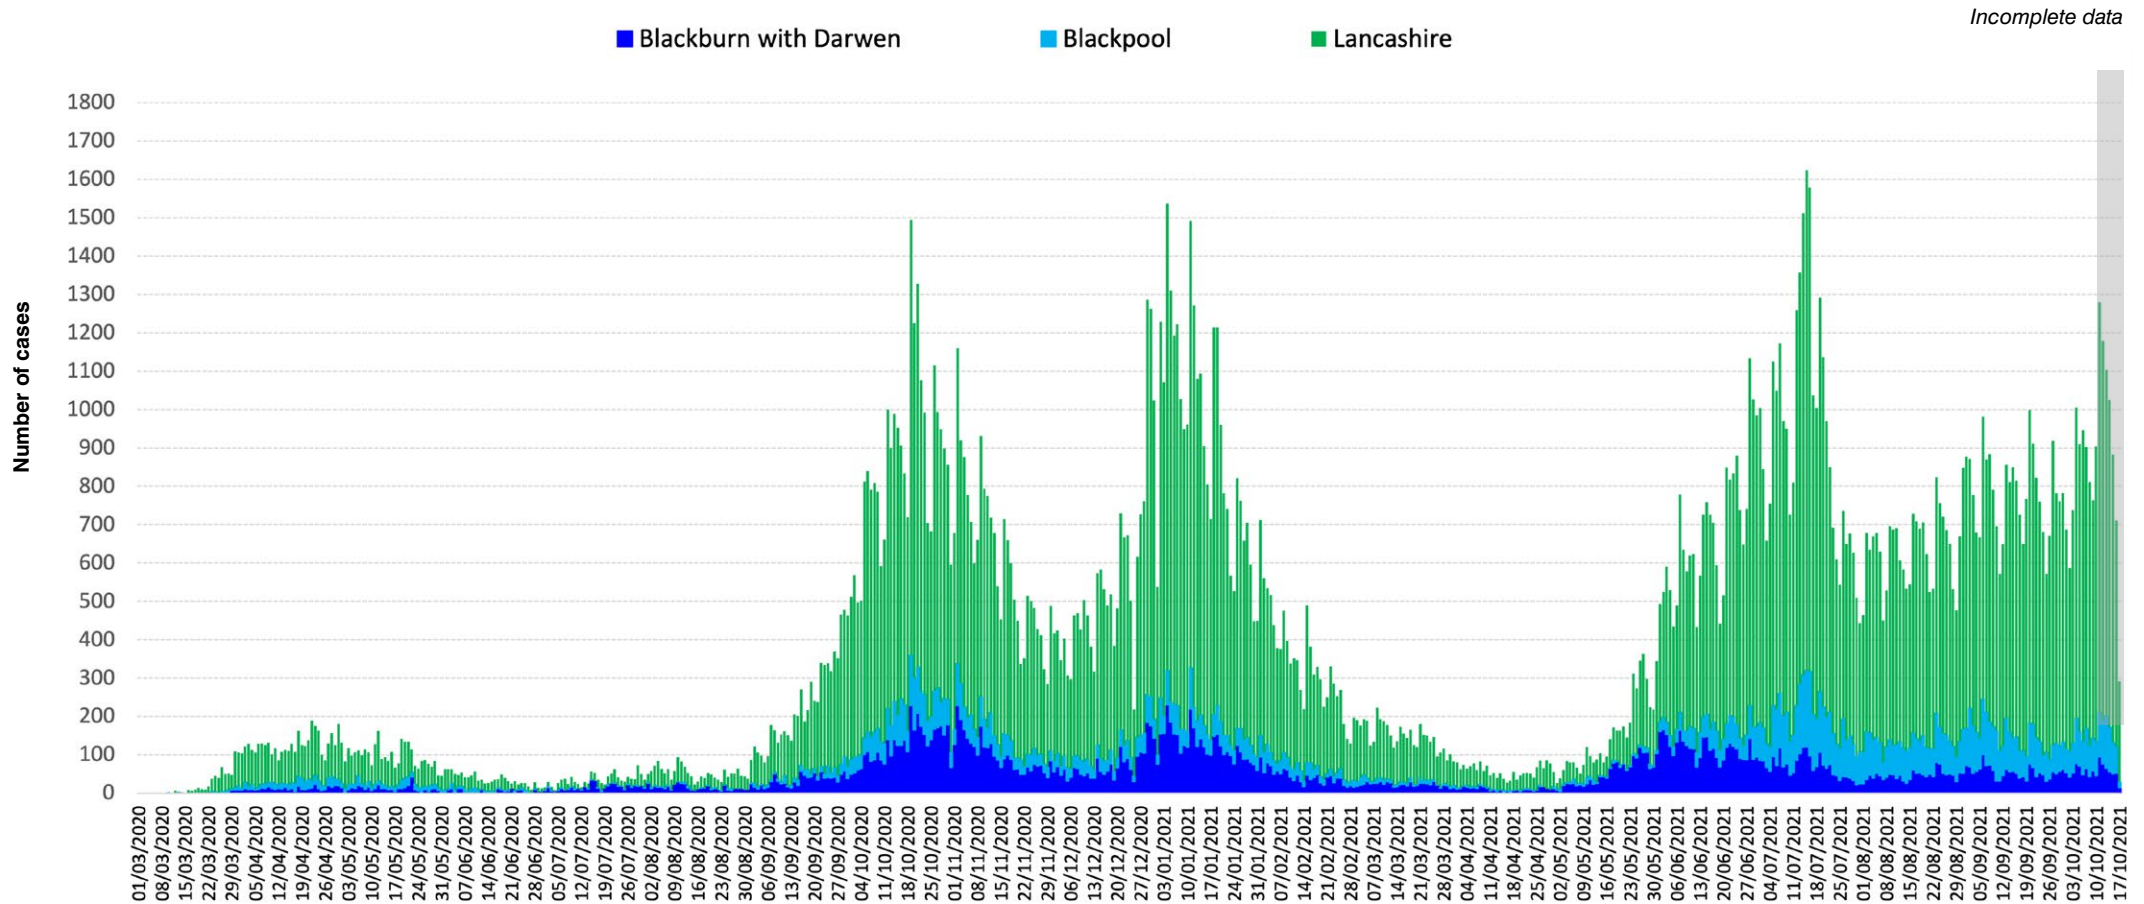

Pillar 2 = testing by commercial partners - swab testing for the wider population from out in the community

Cumulative lab-confirmed cases up to 17 October 2021, rate per 100,000

Daily pillar 1 and pillar 2 lab-confirmed cases to 17 October 2021

Positive tests are counted according to the date the sample was taken. However, most swabs taken in recent days will not yet have produced a result, so it is important not to jump to the conclusion that the epidemic is tailing off quicker than it really is. The PHE website cautions that only data from five days or more ago can be considered complete. The greyed-out columns in figure above are liable to be added to as more results come in.

Figures relating to confirmed cases by Upper Tier Local Authority can be downloaded from: <https://coronavirus.data.gov.uk>

Testing and incidence

Specimens taken/outbreaks reported between 7 October - 13 October 2021

Count of deaths identified as Covid-19 on death certificates and occurred up to 8 October but were registered up to 16 October 2021

LANCASHIRE

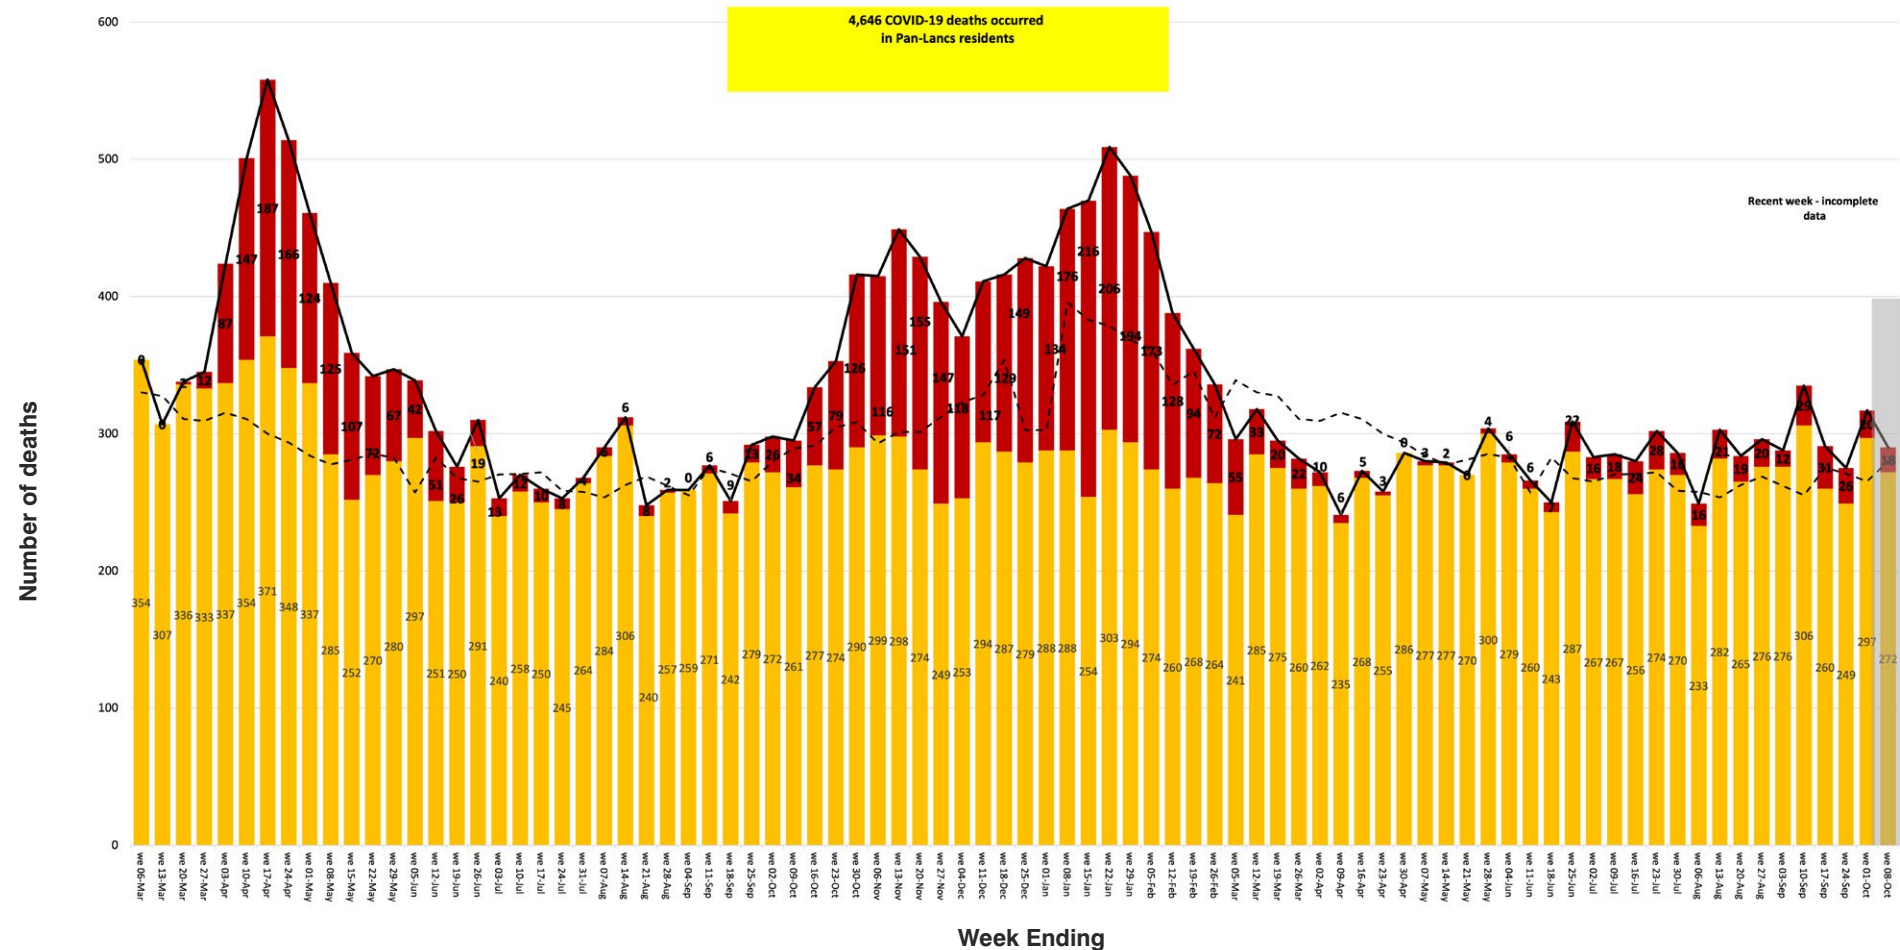

TOTAL 4,646

Up to the 8 October, the number of deaths where COVID-19 was mentioned on the death certificate:
4,646 registered in the Lancashire LRF area
3,629 registered in the Lancashire County Council area

Source: Office for National Statistics (ONS)

Weekly deaths occurring up to 8 October, compared with the five-year weekly average

Non-Covid deaths Covid deaths

Total deaths Weekly average (2015 - 2019)

Covid-19 Vaccinations by local authority of residence and age group

Population/cohort size (denominator) definitions

The estimates of population size can be used as a denominator to approximate or calculate vaccination coverage percentages. Two denominators are used:

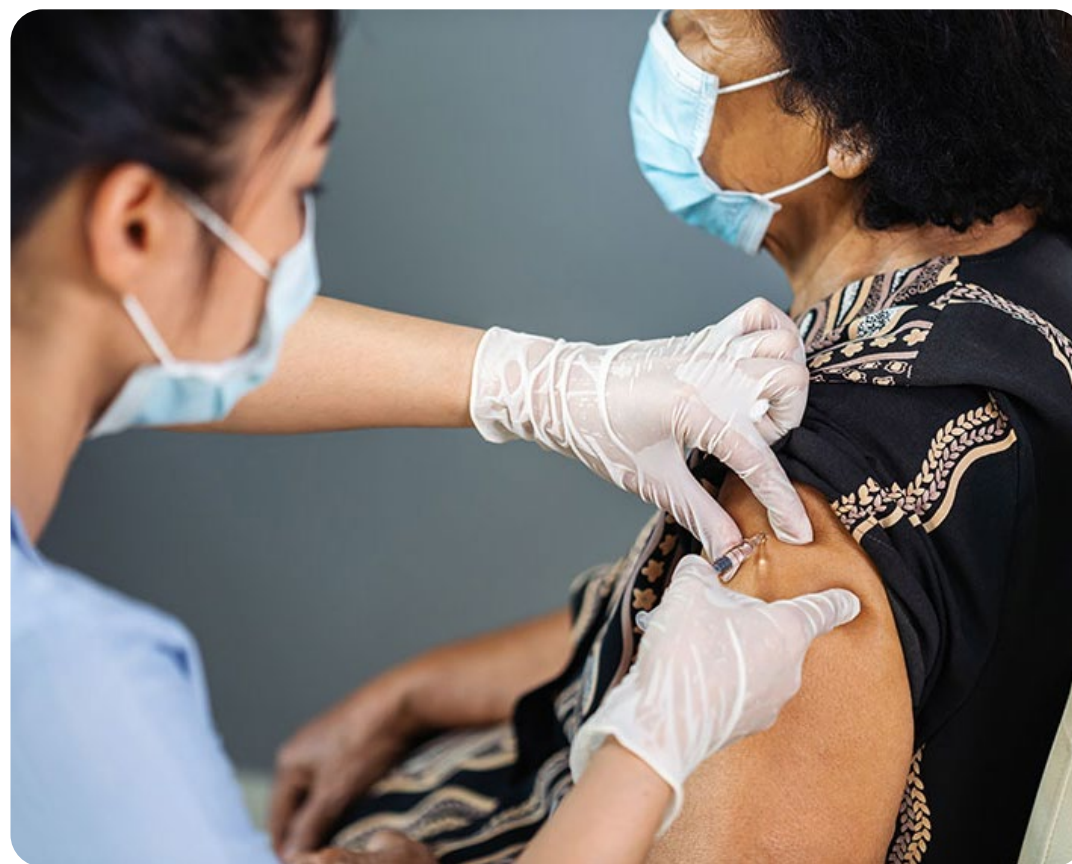

1- Office for National Statistics (ONS) 2019 mid-year population estimates are provided as the official statistics and the best publicly available population estimates. These estimates are consistent with the UK COVID-19 vaccines deployment plan and therefore provide a reference point on progress. They are the most accurate estimates available at national level, however they are less robust at smaller areas and are subject to a degree of uncertainty as they are 2019 estimates based on the 2011 Census.

2- National Immunisation Management System (NIMS) denominators are provided for Lower Tier Local Authority (LTLA). NIMS denominators facilitate management of the vaccination programme at more granular levels and should be used when calculating vaccine coverage for public health purposes. NIMS denominators may provide an overcount if individuals are no longer resident in England, but may also be subject to some undercounting as they currently do not include individuals without an NHS number. Coverage can be viewed as being 'at least' the figures presented using the NIMS denominator. The NIMS denominators are based on the resident population and therefore people will be counted in the denominators if they live in England, even if their GP practice is in Wales or Scotland and they receive their vaccination outside of England. Therefore, when looking at lower levels of geography, areas near the borders may appear to have lower vaccine uptake rates than other areas of England.

Vaccine data

Find out more information about how many people have been vaccinated in your local area, as well as information about the progress of the vaccination programme at:

<https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-vaccinations/>

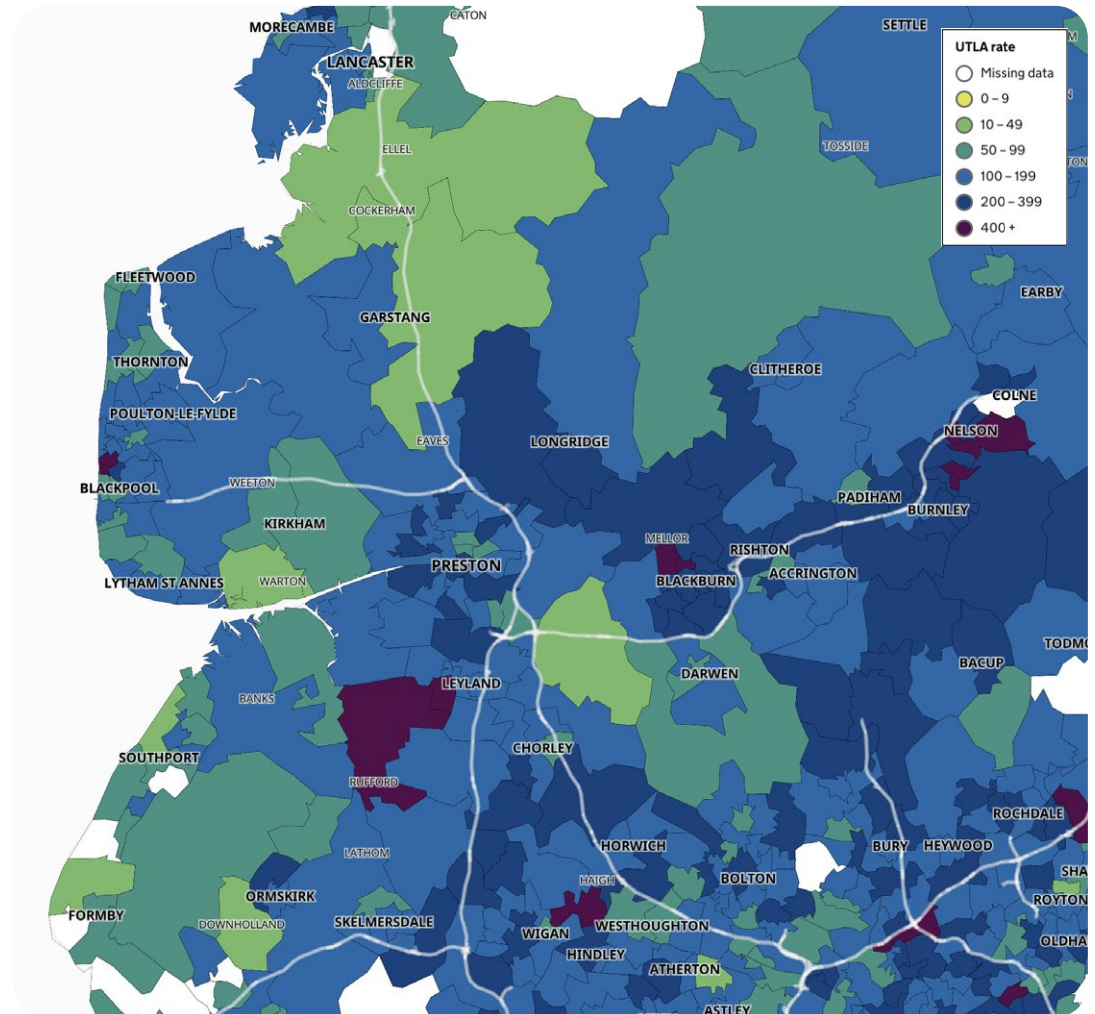

Local information

There is a wealth of local data is available from <https://coronavirus.data.gov.uk>

By typing in your postcode you will get a local dashboard which shows a range of information including how many positive cases and deaths there have been, and how your local area compares to the England average.

You can also explore the interactive map for England.

Help share our messages!

Access our [range of resources](#) to share on social media to encourage Lancashire people to play their part to combat coronavirus.

Find out more about the [LancsTogether](#) campaign and what you can do to take part.

We are all working together in Lancashire to combat coronavirus.
