

Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required?

The crossing is across a live railway, so the high speed trains would be a risk, however the crossing is currently subject to a temporary closure order and is securely fenced off at either side. No special footwear or PPE required.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

No

3. Is the site remote and/or can it be seen from other highways or rights of way?

Urban setting, industrial estate to the east and housing estate to the west. Can be viewed from highways either side, east side Alden Road/2-2-FP4 and Holts lane on west side.

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

Good mobile phone signal.

5. Is the right of way easily accessible? Will arrangements for access by the Inspector need to be made in advance?

Whilst the level crossing is currently fenced off, it can be viewed from either side without prior arrangements. Holts Lane provides the clearest view.

6. Are there any dangerous pieces of equipment or substances stored at any point along the right of way?

No

7. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

No
