

Weekly update for coronavirus figures in the county

15 February 2022

How is coronavirus affecting people in Lancashire?

This is a weekly bulletin produced by the Lancashire Resilience Forum with the latest figures on the number of coronavirus-related cases and deaths in the county, as well as figures at a unitary and district level.

It also shows how Lancashire compares to other areas of the country.

**Lancashire
Resilience
Forum**

Confirmed cases from positive 'pillar 1 and 2' tests up to 13 February 2022

LANCASHIRE

460,413

NORTH WEST

2,238,815

ENGLAND

15,648,433

These figures are from tests carried out in Public Health England labs and in the NHS (Pillar 1) and from other testing routes, such as mobile labs (Pillar 2).

Weekly rate of Covid-19 cases per 100,000 population tested under pillar 1 and pillar 2 (Week 4 - data between 31 January and 6 February 2022).

Please note that the categories have changed since last weeks report.

COVID-19 cases per 100k population over the most recently completed ISO week by UTLA, 31 January - 6 February 2022

For rate of cases detected via testing:
Lancashire's and Blackburn's rate is in the lowest band, and Blackpool's rate is in second lowest band.

Pillar 1 = swab testing in PHE labs & NHS hospitals for those with a medical need and key workers & their families
Pillar 2 = testing by commercial partners - swab testing for the wider population from out in the community

Contains Ordnance Survey data © Crown copyright and database right 2022.
Contains National Statistics data © Crown copyright and database right 2022.
Created by UKHSA, GIS Team

Cumulative lab-confirmed cases up to 13 Feb 2022, rate per 100,000

Daily pillar 1 and pillar 2 lab-confirmed cases to 13 February 2022

Positive tests are counted according to the date the sample was taken. However, most swabs taken in recent days will not yet have produced a result, so it is important not to jump to the conclusion that the epidemic is tailing off quicker than it really is. The PHE website cautions that only data from five days or more ago can be considered complete. The greyed-out columns in figure above are liable to be added to as more results come in.

Figures relating to confirmed cases by Upper Tier Local Authority can be downloaded from: <https://coronavirus.data.gov.uk>

Testing and incidence

Specimens taken/outbreaks reported between 3 February - 9 February 2022

Count of deaths identified as Covid-19 on death certificates and occurred up to 4 February but were registered up to 12 February 2022

LANCASHIRE

TOTAL 5,175

Up to the 4 Feb, the number of deaths where COVID-19 was mentioned on the death certificate:
 5,175 registered in the Lancashire LRF area
 4,050 registered in the Lancashire County Council area

Weekly deaths occurring up to 4 February, compared with the five-year weekly average

- Non-Covid deaths
- Covid deaths
- Total deaths
- Weekly average (2015 - 2019)

Covid-19 Vaccinations by local authority of residence and age group

8 December 2020 to 6 February 2022

Population/cohort size (denominator) definitions

The estimates of population size can be used as a denominator to approximate or calculate vaccination coverage percentages. Two denominators are used:

1- Office for National Statistics (ONS) 2019 mid-year population estimates are provided as the official statistics and the best publicly available population estimates. These estimates are consistent with the UK COVID-19 vaccines deployment plan and therefore provide a reference point on progress. They are the most accurate estimates available at national level, however they are less robust at smaller areas and are subject to a degree of uncertainty as they are 2019 estimates based on the 2011 Census.

2- National Immunisation Management System (NIMS) denominators are provided for Lower Tier Local Authority (LTLA). NIMS denominators facilitate management of the vaccination programme at more granular levels and should be used when calculating vaccine coverage for public health purposes. NIMS denominators may provide an overcount if individuals are no longer resident in England, but may also be subject to some undercounting as they currently do not include individuals without an NHS number. Coverage can be viewed as being 'at least' the figures presented using the NIMS denominator. The NIMS denominators are based on the resident population and therefore people will be counted in the denominators if they live in England, even if their GP practice is in Wales or Scotland and they receive their vaccination outside of England. Therefore, when looking at lower levels of geography, areas near the borders may appear to have lower vaccine uptake rates than other areas of England.

Vaccine data

Find out more information about how many people have been vaccinated in your local area, as well as information about the progress of the vaccination programme at:

<https://www.england.nhs.uk/statistics/statistical-work-areas/covid-19-vaccinations/>

Local information

There is a wealth of local data is available from <https://coronavirus.data.gov.uk>

By typing in your postcode you will get a local dashboard which shows a range of information including how many positive cases and deaths there have been, and how your local area compares to the England average.

You can also explore the interactive map for England.

Help share our messages!

Access our [range of resources](#) to share on social media to encourage Lancashire people to play their part to combat coronavirus.

Find out more about the [LancsTogether](#) campaign and what you can do to take part.

We are all working together in Lancashire to combat coronavirus.
