Find your family

Cut out picture cards and words. Choose 6 children to be the 'head' of the family and give each of them a picture card. Distribute the other cards to the remaining children in the class. On the word 'Go!' the word cards are shown and the heads of the families must locate and collect their family members as soon as possible. The winning team is the first family to gather all 6 correct members.

Further opportunities can arise such as exploring the words in context, considering which is the most effective to replace the original, considering which are **not** appropriate to replace the original, etc.
