Working together to keep young people safe

HOW CAN YOU TELL IF A VAPING OR E-CIGARETTE DEVICE IS LEGAL TO SELL?

Packaging and containers must have the health warning “This product contains nicotine which is a highly addictive substance”.

The health warning must:

- Appear on both the front and back surfaces of the packaging and container
- Cover 30 per cent of the area of each of those surfaces
- Be in black Helvetica bold type on a white background
- Be in a large font size in the centre of the surface area

In addition:

- The capacity of the tank of a refillable e-cigarette must not exceed 2ml
- The volume of nicotine-containing liquid in a disposable e-cigarette must not exceed 2ml
- The volume of nicotine-containing liquid in an e-liquid refill bottle must not exceed 10ml
- Nicotine-containing liquids must not have a nicotine strength exceeding 20mg/ml
- Packaging and containers must be child-resistant and tamper evident.
- Certain ingredients (including colourings, vitamins, caffeine and taurine) are not allowed.
- The product must be labelled with the details of the UK manufacturer or importer.
