

Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required?

The Order route passes through a tarmac surfaced area used for car parking. No special footwear is needed and no PPE is required. No recorded public rights of access exist across the site so landowner permission will be required.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

No known risks. Pets may be present – particularly if accessing the route along the front of the residential properties known as Warburton Buildings.

3. Is the site remote and/or can it be seen from other highways or rights of way?

The site is in a residential area and is not remote.

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

A good mobile signal is available.

5. Is the right of way easily accessible? Will arrangements for access by the Inspector need to be made in advance?

Ownership of the land crossed by the Order route between point A and point B is not known. Access is readily available along this section and is not disputed by the residents living along it. Access to the Order route between point B and point C is disputed by the landowners and access will need to be agreed with them. It is possible to view the route between point B and point C from Grane Road and also from the Order route at point B.

6. Are there any dangerous pieces of equipment or substances stored at any point along the right of way?

None that the OMA are aware of.

7. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

No.
