

Dear PE Subject Leader

Lancashire PE Passport Platform Update

We are pleased to announce the new name for the Lancashire PE Passport App is now the Lancashire PE Passport Platform, this is due to the expansion of the website making it much more than just an App. We now have over 500 schools using the Platform and it has been influential in supporting schools in raising standards in PE and in supporting staff in the many PE Deep Dives this academic year.

The Government announcement of the continuation of the PE Sports funding for the next two years helps us to ensure high quality teaching and learning in curriculum PE can continue. The Platform continues to be an excellent way to spend your Sports Premium Funding. Following on from the government announcement in March we know we can carry any underspend from this academic year over.

Due to the expansion of the platform and features and functions of the PE Passport Platform there will be a price increase from academic year 2023/2024. The price increase still ensures value for money at a very competitive rate.

What is included in the new Lancashire PE Passport Platform
