

## **Abbeystead Lane/Road Dolphinholme**

### **Statement of Reasons**

The purpose of the 30mph speed limit is to improve the safety for all highway users and increase the sustainability for the new housing development and residents of the existing properties who walk to and from the church and school between Abbeystead Lane and Abbeystead Road.

This proposal also revokes part of a 30mph restricted road Speed Limit Order which is no longer required due to the presence of a system of street lighting.

These proposals are being funded by the developer of the site under Section 278 of the Highways Act 1980
