

## **BSIPS – New Hall Lane Bus Lane Proposal**

### **STATEMENT OF REASONS**

The introduction of a dedicated bus lane for local bus service is proposed to improve journey times and reliability of bus services travelling south-west bound on New Hall Lane, as part of the Bus Service Improvement Plan. The proposed bus lane would include reallocation of existing carriageway widths to maintain 2-way status adjacent.

The proposal, in coordination with other schemes in the Bus Service Improvement Plan, aims to encourage a greater proportion of sustainable travel.

### **REASONS UNDER Section 1 of the RTRA**

- (c) for facilitating the passage on the road or any other road of any class of traffic (including pedestrians), or
- (f) for preserving or improving the amenities of the area through which the road runs, or
