

# Coming Soon!

**On demand, Online training  
modules for Primary Science**  
**Pay for and access at any time**

- **Module 1 – Disciplinary Knowledge: enquiry types and science skills and what it means to work scientifically.**
- **Module 2 – Planning and Assessing the Skills: Identifying opportunities for WS skills across the curriculum and planning for a skill focused assessment across the age phases using the national TAPS materials.**
- **Module 3 – Developing Pupil Independence: Children raising questions which they go on to test, scaffolding opportunities to support children making their own suggestions for investigations and adaptive teaching frames to support pupil recording and promote progression.**
- **Module 4 – Supporting children to develop the skill of gathering and recording data and drawing and writing conclusions at age-related expectations.**

Purchase one at a time or access all 4 for a  
discounted rate
