Welcome to Lancashire Professional Development Service (LPDS), comprised of a team of nationally recognised consultants dedicated to promoting excellence, creativity, and enjoyment in partnership with schools.

We pride ourselves on offering expert support to teachers and schools through our comprehensive range of continuous professional development (CPD) programmes, which provide exceptional value for money. Over the course of the year, we have continued to develop our package and special offers for 2025/26 to fit all school budgets. Details of these can be found within this brochure. All of our offers can be tailored to be delivered in house, as a part of a cluster of schools or, to multi- academy trusts.

In the upcoming year, we continue to offer online training, allowing you to participate in high-quality training in the environment where you feel most comfortable. We have also increased our series of 'on demand', short CPD videos that are ideal to utilise as a part of your in-school staff meetings/INSET days. Details of these can be found throughout our website: www.lancashire.gov.uk/lpds

In addition, please do visit our YouTube channel, where you can find a series of VLOGS by various members of the team. These are freely available and regularly added to. Our channel can be accessed here: www.youtube.com/@LearningExcellence

Our consultancies, courses, publications, and conferences cover a wide spectrum of phases and curriculum subjects. By engaging with our offerings, you will contribute to improving outcomes for all children, enhancing the performance and effectiveness of schools, as well as fostering collaboration with local authorities, multi academy trusts and other partners within the education sector.

We understand that the development needs of your teachers, teaching assistants, ECTs, subject leaders, and school leaders are unique, which is why we provide bespoke approaches to teaching and learning. Our support is research and evidence-based, incorporating local and national priorities into innovative classroom practices. We work closely with schools to develop our training programme and content to ensure that it is always evolving and meeting the needs of children across our offer.

Furthermore, we continue to expand our collection of highly regarded publications and resources, catering to all phases and areas of the curriculum. These invaluable tools are designed to bolster teaching and learning in schools and settings.
