

## **Lancaster Park and Ride**

### **STATEMENT OF REASONS**

The purpose of these proposals is to introduce parking charges at the North and South car parks of the Lancaster Park and Ride. This aims to support the ongoing maintenance and operation of the facilities—including both the site and the bus service—while encouraging appropriate use of the available parking spaces.

The proposed parking charge will be aligned with the current park and ride bus fare and will permit parking for a 24-hour period. This charge will apply at all times, seven days a week. The fee will include bus travel for the driver of the parked vehicle. Any additional passengers will be required to pay the standard bus fare or applicable concession, which will remain unchanged.
