THE NATIONAL GRID
TO GIVE A GRID REFERENCE CORRECT TO 100 METRES

TO GIVE A GRID REFERENCE CORRECT TO 100 METRES		
EXAMPLE	Rington Farm	
The Grid Letters on this sheet are SD		
EAST	NORTH	
Take west edge of kilometre square in which point lies and read the large figures printed opposite this line on north or south margin.	Take south edge of kilometre square in which point lies and read the large figures printed opposite this line on east or west margin.	
Estimate tenths Eastwards	Estimate tenths Northwards	
338	407	
Full 100 Metre Reference SD 338407		

The above Full Reference is unique. For many purposes the first grid letter can be omitted giving a reference, D 338407 which recurs at intervals of 500 Kilometres. If both grid letters are omitted, the resulting reference 338407 recurs at intervals of 100 Kilometres. When the area concerned is sufficiently restricted, as will usually be the case with maps on scales of one inch to the mile and larger, both the grid letters are normally omitted.

At the Eastern edge of this sheet True North is $0^{\circ} 48'$ East of Grid North
and at the Western edge $0^{\circ} 52'$ East of Grid North.
Magnetic North was about $9\frac{1}{2}^{\circ}$ West of Grid North in 1955 decreasing by about $\frac{1}{2}^{\circ}$ in four years.
Heights are in feet above Mean Sea Level at Newlyn.

REVISION DIAGRAM

Revised before 1930.

The whole sheet was revised for

The whole sheet was revised for major changes only in 1951

Boundaries revised to 1-3-55
