

Are your assessment systems helping staff make confident, data-informed decisions to improve pupil outcomes?

If not, it might be time for an Assessment Health Check—a practical review to strengthen your whole-school approach to assessment and data use.

Book now to ensure your processes are effective, consistent, and driving real impact in teaching and learning.

AREAS SCHOOLS MAY CHOOSE TO DISCUSS:

- Use of school data through analysing IDSR/ASP/LSIP.
- Identification of trends in data across key stages.
- Review of school policies relating to assessment.
- Use of tracking systems to gather data effectively (any tracking system).
- Developing effective pupil progress meetings (for staff and governors).
- Planning statutory assessment procedures in a systematic way.
- Moderation opportunities.
- Assessment of foundation subjects.
- Governor roles and responsibilities related to assessment.
- Effective use of formative assessment strategies as a diagnostic tool.
- Training and support to implement formative assessment strategies.

SESSION AVAILABLE AS 2-HOUR CONSULTANCY, HALF DAY OR FULL DAY

- Achieve clarity and consistency across school.
- Move beyond data collection to meaningful data analysis.
- Enable responsive teaching based on accurate, timely assessment.
