

# Support WellComm Everyday

## Interactions

Consider key areas of learning that can take place whilst you are talking to the children during play. E.g. In role play use prepositions.. 'teddy is 'on' the chair.

## Circle time

Consider using ideas from the Big Book of ideas during circle/group times each day.

## Transitions

Just before lunch arrives, during nappy or tidy up times can be a perfect opportunity to talk to children and sing songs together.

## Outside

Use our outdoor ideas to enhance learning outside too. For example; create an obstacle course to introduce the words 'in' and 'on'.

**WellComm**

**Let's make it work  
for every child**

Here are some ideas of  
how WellComm can  
become part of  
everyday practice.

Can ideas be added to snack time or story time? Consider using a story vote or talking about colours at snack time.

## Routines

Look at our list of songs and stories that link to WellComm, can these be used to support communication and language throughout the day?

## Stories and Songs

Is there opportunity for practitioners to play with small groups of children, using a focus from the Big Book of Ideas?

## Groups

Can you set weekly challenges or introduce a WellComm focus for each week? These could be shared with parents too.

## Challenges
