

20 October 2022

Dear Local Resident

Thank you for writing to me about the potential health impacts of a proposed quarry to extract sand and gravel in Preesall.

I have since spoken to the development management team in the county council about the potential air quality and health impacts, including the levels of silica dust that may be released as part of this proposal. I am pleased to confirm that the county council has instructed this assessment should be included if a planning application is submitted.

Yours truly

Dr Sakthi Karunanithi MBBS MD MPH FFPH
Director of Public Health and Wellbeing
Lancashire County Council
