Paul O'Connor

Good afternoon My name is Paul O'Connor. I live at Sunflower Barn Bourbles Lane Preesall with my wife and family

I live in a Barn Conversion which is joined to Horseshoe Barn

I mention Horseshoe Barn because both properties were left off the map which highlighted the properties that would be most affected by this proposal.

Was this a mistake or was this a deliberate attempt to give the false number than the truer number affected by this proposal.

My family and my neighbours are effectively living on site surrounded by the proposed quarry. And remember according to the developers we do not exist.

② The dust produced has many negative effects :- including breathing problems, heart problems and indeed cancer.

My wife and I have been treated with stress medication since this proposal reared its ugly head

The negative health impacts have been covered by others. So I would like to bring to the attention ~~to~~ the inspectors the threat to my property.

My barn is approximately 120yrs old. It lies on shallow shingle foundations and is at risk from land disturbance leading to subsidence like many other properties nearby.

The water table is ~~low~~^{high} with running sand. The site would have to ~~have~~ have huge noisy pumps running 24/7 de-watering, which would shake our property violently 24/7. It would be unbearable.
