

Health and safety at the site questionnaire

The Inspector will visit the site and will need to know what safety equipment and protective clothing to bring. The following questions indicate the type of information the Inspector will need about the site and any land or building that the Inspector will need to enter. Please supply any additional information on a separate sheet of paper.

1. Is the site uneven or does it present any other known risks? Is special footwear or any other Personal Protection Equipment required, and will this be supplied at the site?

Walking boots are recommended as the route passes over tracks and through woodland and fields.

2. Is there any likelihood of exposure to pets or other animals which may present a risk to the safety of the Inspector?

Cattle or sheep may be grazing fields.
Dog walkers may also be using the route A-B-C.

3. Is the site remote and/or can it be seen from other occupied buildings/property/public land/roadside?

The Order route starts in the small hamlet of Wrayton and passes through a cluster of houses. From A-C it is recorded as a public footpath but beyond point C there is no recorded public access. Whilst not 'remote' it is rural and in places it is not possible to see (or be seen) from public roads or properties.

4. Does the site have a good mobile phone signal or is there easy access to a public telephone should the emergency services be required?

Mobile coverage is generally OK but can dip out in the woodland.

5. Are there any areas that require specialist equipment or training for access – any confined spaces?

No

6. Are there any dangerous pieces of equipment or substances stored at the location?

None identified.

7. Is there any likelihood of exposure to chemicals, asbestos, radiation or are there any other risks, requiring the use of Personal Protection Equipment, which may affect the health & safety of the Inspector? (Asbestos is referred to directly as it was present in buildings built before it was banned in 1977).

None identified.

8. If there is any other relevant information which the Inspector should be aware of that is not covered in this questionnaire?

It is possible to park on the road near point A or to park in Melling Village just west of the school. Melling Moor is an unsurfaced road and it is not advised to drive along it to access the route but it is a very pleasant walk.
